L'Architecture d'aujourd'hui, 1979 *Accueillir l'enfant aujourd'hui : La Maison Verte a 40 ans* Association La Maison Verte, 2021-08-30 Après 40 ans d'existence l'équipe de La Maison Verte est fière de continuer faire vivre ce projet innovant en 1979 toujours subversif en 2019 o la question de la parole de l'enfant claire par l'enseignement de la psychanalyse est inlassablement soutenue d'endue et transmise Avec nos amis d'Athènes nous r interrogerons l'articulation dans ce temps de l'accueil de l'éducation et de la psychanalyse Nous explorerons les notions d'hospitalité et de temporalité Nous reviendrons sur la fonction tierce du lieu et ce qu'elle permet de dévoiler de la transmission psychique inconsciente Enfin il sera question du singulier de la position masculine dans le dispositif **Quel âge aurait-il aujourd'hui ?** Dr Stéphane Clerget, 2007-10-24 Aujourd'hui plus d'une grossesse sur deux n'est pas menée son terme or les femmes qui font des fausses couches n'ont pas voix la plainte tant la pratique est courante et banalisée Qu'il s'agisse d'interruption volontaire ou involontaire de grossesse en l'absence de prise en charge les conséquences psychologiques s'avèrent plus graves qu'on ne le pense du traumatisme ou de la dépression la colère au déni ou la tristesse Non reconnues dans leur douleur les femmes donnent corps dans leur esprit ce disparu qui vient les hanter Quel âge aurait mon enfant aujourd'hui Grâce aux nombreux témoignages l'auteur donne la parole ces femmes et propose des prises en charge des remèdes et une vraie reconnaissance sociale , **Jacques Hassoun-- de mémoire** Claude Spielmann, 2010 18 auteurs rendent hommage J Hassoun psychanalyste qui a fait travailler ensemble la psychanalyse l'histoire les langues la politique sur fond de judaïsme

L'inconscient est-il politiquement incorrect? Isabelle Floc'h, Arlette Pellé, 2008 La société contemporaine est dépendante des fictions sociales scientifiques juridiques etc qui dirigent le mode de pensée de tout un chacun qui s'en croit la victime Cet ouvrage met en évidence ce phénomène et montre l'importance de l'inconscient un géniteur qui trahit l'idéal de contrôle et de prévention promu par un discours scientifique devant lequel la psychanalyse apparaît has been *International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences*, 2005 Repère, 2007 **Talking to Babies** Myriam Szejer, 2005-08-15 Myriam Szejer talks to newborns For over a decade she has worked in the maternity ward of a hospital outside Paris Called in by hospital staff when a baby or its parents are suffering Szejer uses the psychoanalytic techniques of careful listening and talking to reach failure to thrive and other suffering newborns and reverse their conditions Talking to Babies is the story of her important work Having psychologists or psychiatrists available to new mothers on maternity wards is not unusual But having a psychoanalyst available who also talks to newborns is completely revolutionary Szejer has pioneered her unique approach to treating struggling infants through years of study and apprenticeship And in Talking to Babies she describes in thoughtful and convincing detail the theory of her practice and how her interventions work illustrating with the moving stories of the numerous infants she has helped In the very first days of a baby's life the newborn still struggling between birth and its entry into our world already needs words

By needing words Szejer means that infants need to be talked to about the specific situations into which they are born. They need to hear about their mothers, fathers, siblings and caretakers but they also need to hear about problematic aspects of their histories such as the death of a twin sibling or the death of a baby before them. These words must be spoken to the baby in the presence of his or her mother and father if at all possible. Such speech helps everyone newborn and parents to find their places in the altered world created by the birth. When such words are not present physical symptoms and illness may emerge. Talking to Babies is the first book to show how the talking cure can help infants and their parents. Post partum depression in mothers, failure to thrive in babies, these problems might be approached quite differently if maternity wards incorporated some of Szejer's practices. High tech interventions are all too common in American maternity wards. Talking to Babies offers a more humane route for restoring health.

Preface Sometimes as I am leaving the hospital late at night I stop to look in on a patient who has recently given birth. And often as I open the door I catch a special moment: the new mother leaning over the crib or more often face to face with the newborn on her lap looking intently at him and murmuring motherly words. In a maternity ward however everything is not always so rosy. Birth is sometimes accompanied by suffering, a suffering too rarely perceived in our Western societies. When I met Myriam Szejer an unknown field opened to me: the reality of the newborn's preverbal behavior. Szejer dares psychoanalyze newborns, dares talk to them, dares intervene before the symptom has taken root, particularly in dangerous situations. Her approach ought to become known to all who make perinatal medicine their career. Her approach is innovative. What woman has not been shaken to her very being by becoming a mother, what man has not trembled at becoming a father? Babies feel that profound apprehensiveness. They need to be listened to, which is a form of respect from the Preface by Ren Frydman M.D.

Faites comme si je n'avais rien dit Pierre Boncenne, 2003. L'ensemble propose une réflexion sur le travail d'écriture, la création et la formation d'une pensée.
