

# THE PSYCHOLOGY OF MONEY

## CHAPTER 7 SUMMARY

*"Freedom"*

1

### Freedom and Autonomy

We often think of wealth in terms of numbers—in our bank accounts, in the value of our homes, in the price tags of our cars. But what if wealth is something much simpler, something that doesn't have a price tag?

2

### Control Over Time

Control over your schedule, your priorities, your life. When you have control, life feels different. You're not just going through the motions, ticking off tasks that someone else set for you. You're living on your terms.

3

### Happiness Beyond Wealth

We've been taught to chase the next raise, the next promotion, the bigger house, the fancier car. But does any of that really make us happier? The truth is, happiness isn't about how much control you have. Control over your own life.

4

### Redefining Wealth

So, what is wealth? It's not the balance in your bank account or the value of your assets. True wealth is the ability to make choices that reflect your values, your desires. It's about having enough to say no when you want to, and yes when it truly matters.

5

### Real-Life Implications

Having an emergency savings fund that allows you to take time off work when you're sick. The financial flexibility to wait for a job that suits you instead of grabbing the first offer out of desperation.
