*Les régentes dans l'histoire de France de Jules Michelet* Alphonse Marjorie,2006 *Extraits de l'Histoire de France de Jules Michelet* Jules Michelet,2017-10-15 Excerpt from *Extraits de l Histoire de France de Jules Michelet* Edited With Introduction And Notes The present edition of selections from Michelet is intended as a text book for the study not of history but of French The aim has been therefore to find passages of average difficulty rather than descriptions of important events At the same time the selections will be found characteristic and typical both of the author and of French history Selections from the period of the Middle Ages are purposely omitted because more hackneyed and at the same time more remote from the interest of the young student of to day Excessive annotation of historical and geographical names has been intentionally avoided as uselessly confusing Information is given when helpful to the comprehension of the text or when topographical names vary from French to English Omissions in the text have been made to bring about compression and unity but the only change is the substitution at the beginning of one selection of a person s name for a pronoun referring to that person About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Michelet's Histoire de France Jules Michelet,1935 **Extraits de l'Histoire de France de Jules**

part the need of more French historical or critical works among the great mass of stories and plays which are now in use in the schools and colleges All the selections except the first cover important periods of French history the first selection is one of Michelet s best known chapters and is important not only in giving an excellent idea of a phase of the author s style but as containing one of the best descriptions of France and the elements that have constituted the nation It is hoped that the vocabulary will be found complete Place names and their descriptions if deemed necessary will be found here and not in the notes so too it has been possible in almost all cases to give the necessary historical information under the proper name in the vocabulary without referring to the notes Exact dates are given except in the case of persons of the least importance The few foreign quotations that occur in the text will be found in their proper places in the vocabulary A knowledge of the principles of elementary French grammar including irregular verbs is presupposed hence no notes of this nature are given The complete vocabulary renders copious notes unnecessary those that are given relate to irregularities or give such material as could not conveniently be placed in the vocabulary About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
