Zupan, 2014-09-10 *Microeconomics* Browning, 2014-09-10 **Social Marketing in Action** Debra Z. Basil, Gonzalo Diaz-Meneses, Michael D. Basil, 2019-05-24 This textbook provides students with real world social marketing case studies from different countries and regions around the world taking learners from classroom theory to practice The primary objective is to clearly portray to students distinct identifiable steps that are essential for successful social marketing campaigns Core social marketing practices are applied to each case to help students master social marketing principles and apply them to their own real world social marketing activities in order to affect positive social change This textbook first provides the tools necessary to understand the effective application of social marketing and then offers 24 case studies exemplifying effective social marketing efforts from all around the world Specifically Part I clearly and concisely explains the principles of social marketing in five chapters Upstream vs downstream social marketing SWOT competition Fundamentals of social marketing ethics Formative and Evaluative Research Theories applied in social marketing A historical perspective on social marketing Part II features 24 social marketing case studies that demonstrate the application of social marketing principles All 24 cases follow a consistent structure that includes Background Positioning SWOT Research Objectives The 4 P s Target audience Evaluation Barriers and benefits Discussion Competition This format allows for students and professors to easily and effectively select individual cases and compare between cases This textbook also allows instructors to encourage critical thinking by having students compare and contrast not only the cases themselves but the applications used In addition teaching guides with answers to discussion questions suggestions for activities inside and outside of the classroom and further readings are available to assist professors in teaching from this book **21st Century Economics: A Reference Handbook** Rhona C. Free, 2010-05-14 Interest in economics is at an all time high Among the challenges facing the nation is an economy with rapidly rising unemployment failures of major businesses and industries and continued dependence on oil with its wildly fluctuating price Americans are debating the proper role of the government in company bailouts the

effectiveness of tax cuts versus increased government spending to stimulate the economy and potential effects of deflation Economists have dealt with such questions for generations but they have taken on new meaning and significance Tackling these questions and encompassing analysis of traditional economic theory and topics as well as those that economists have only more recently addressed 21st Century Economics A Reference Handbook is intended to meet the needs of several types of readers Undergraduate students preparing for exams will find summaries of theory and models in key areas of micro and macroeconomics Readers interested in learning about economic analysis of an issue as well students embarking on research projects will find introductions to relevant theory and empirical evidence And economists seeking to learn about extensions of analysis into new areas or about new approaches will benefit from chapters that introduce cutting edge topics To make the book accessible to undergraduate students models have been presented only in graphical format minimal calculus and empirical evidence has been summarized in ways that do not require much background in statistics or econometrics It is thereby hoped that chapters will provide both crucial information and inspiration in a non threatening highly readable format
