Socialist Party and the American Federation of Labor Focusing on the emergence of migratory labor and the nature of the  
work itself in industrializing the region Sellars provides a social history of labor in the Oklahoma wheat belt and the  
midcontinent oil fields Using court cases and legislation he examines the role of state and federal government in suppressing  
the union during World War I *Oil What Wobblies* concludes with a description of the IWW revival and subsequent decline  
after the war suggesting that the decline is attributable more to the union's failure to adapt to postwar technological change
