Bayliss, Ben Fine, 2021-01-04 Understanding consumption requires looking at the systems by which goods and services are provided not just how they are produced but the historically evolved structures power relations and cultures within which they are located The Systems of Provision approach provides an interdisciplinary framework for unpacking these complex

issues This book provides a comprehensive account of the Systems of Provision approach setting out core concepts and theoretical origins alongside numerous case studies The book combines fresh understandings of everyday consumption using examples from food housing and water with implications for society s major challenges including inequality climate change and prospects for capitalism Readers do not require prior knowledge across the subject matter covered but the text remains significant for accomplished researchers and policymakers especially those interested in the messy real world realities underpinning who gets what how and why across public and private provision in global national and historical contexts

Problems of Economic Policy (Routledge Revivals) ,     A.C. Pigou and the 'Marshallian' Thought Style Karen Lovejoy Knight,2018-12-29 This book provides a study of the forces underlying the development of economic thought at Cambridge University during the late nineteenth century and the first half of the twentieth century The primary lens it uses to do so is an examination of how Arthur Cecil Pigou s thinking heavily influenced by his predecessor Alfred Marshall evolved Aspects of Pigou s context biography and philosophical grounding are reconstructed and then situated within the framework of Ludwik Fleck s philosophy of scientific knowledge most notably by drawing on the notions of thought styles and thought collectives In this way Knight provides a novel contribution to the history of Pigou s economic thought     *The Economics of Unemployment* John Atkinson Hobson,1924     Problems of Economic Policy Keith Hartley,1977     **The Financialisation of Social Reproduction in the Age of Neoliberalism: From Theory to Case Studies** Ben Fine,2024-12-02 Drawing upon comprehensive research across five countries including case studies of housing water and health comprehensive theoretical and empirical accounts are offered of the impact of financialisation on economic and social reproduction alongside the corresponding material cultures of neoliberalism Economic is understood as embedded within social reproduction with neoliberalism as the current stage of capitalism fundamentally underpinned by but not reducible to the financialisation of everyday life Considerable emphasis is placed upon the variegated outcomes attached to the neoliberalisation of social reproduction as highlighted by the comparative study of economic and social provisioning across different countries and sectors     *Scandalous Economics* Aida A. Hozic,Jacqui True,2016-03-10 Of all of the lies fragile alliances and predatory financial dealings that have been revealed in the wake of the Global Financial Crisis of 2008 we have yet to come to terms with the ways in which structural inequalities around gender and race factor into and indeed make possible the current economic order Scandalous Economics is about silences the astonishing neglect of gender and race in explanations of the Global Financial Crisis But it is also about noises the sexual scandals and gendered austerity policies that have relegated public debate and the crisis itself into political oblivion While feminist economists and movements such as Occupy Wall Street have pointed to the distributional inequalities that are an effect of financial deregulation scholars haven t really grappled with the representational inequalities inherent in the way we view the politics of the market For example capitalism won t be made more equitable simply by appointing women to leadership positions within financial firms or corporations And

the next crisis will not be averted if our understandings of gendered inequalities are framed by sexual scandals in media and popular culture We need to look at the activities and the privileges of the advantaged the TED women of the crisis as much as the victimization of the disadvantaged to fully grasp the interplay between gender and economy in this fragile age of restoration Scandalous Economics breaks new ground by doing precisely this It argues that normalization of the post GFC economic order in the face of its obvious breakdown s has been facilitated by co optation of feminist and queer perspectives into national and international responses to the crisis Scandalous Economics builds upon the Occupy movement and other critical analysis of the GFC to comprehensively examine gendered material ideational and representational dimensions that have served to make the crisis and its effects the new normal in Europe and America as well as Latin America and Asia

**Economic Policy (Routledge Revivals)** Grahame Thompson, 2014-11-13 What happened to economic policy during the first five years of Mrs Thatcher's government Most commentators have emphasised the radical changes wrought in economic theory and policy over the period from 1979 The left saw this as heralding the introduction of the social market economy and authoritarian populism the right saw it as evangelical monetarism and a new beginning This book first published in 1986 challenges the notion that there was a revolution in economic policy making It emphasises the constraints on economic policy formation and the ironies that these have thrown up with respect to the Conservatives' attempts at changing the course of the economy The book argues that the Thatcher government had not been able to implement a great deal of its rhetoric This book is ideal for students of economics and politics *Rationalisation and Unemployment (Routledge Revivals)* J. A.

Hobson, 2013-02-01 First published in 1930 John Hobson's study deals with the economic dilemmas generated in the early twentieth century by the advent of mass production Namely the over production and surfeit of goods and the resultant failure of the expansion of markets leading to record levels of mass unemployment Seeking a solution to this dilemma Hobson analyses all aspects of the problem income uses of the surplus underconsumption markets and distribution and internationalism The study also explores theories concerning economies of rationalisation both in terms of productivity and consumption *Critical Notes on Labour Market Deregulation* John Edward King, 1997 **A Perspective of Wages and**
