PHILIP A. ALFO

Evidence - There Is Life After Death

Evidence - There is Life After Death

There are numerous beliefs, ideas, and teachings world regarding the topic of life after death. Are I facts that we can use as a foundation for these evidence proving the reality of such a belief?

Yes, there is. To begin with, there is a "physical law
The Law of Conservation of En

The Law of Conservation of Energy is
**"Energy cannot be created, nor can it be
It simply changes form."**

Our bodies is a source of energy. The human is re- send more messages than all the phones in the world while a single neuron generates only a tiny amount. your neurons together can generate enough electric- recharge light bulb."

Further, our bodies also produce energy, but as an energy by the ignition of a spark due to the gas. In- bodies, our body's energy comes from the food we eat. the body processes food, burns, and breathes and our energy comes from the food we eat. Our bodies are re- by eating it with fluids inside and excreted in- to new foods our body.

Typically a person produces about 10,000 kilowatts- day or about a constant of 1.00 watts for 24 hours."

"The energy we get from food and drink is converted to electro- energy used by our cells."

was built in 1975, and we were in an old 1968 Chevy Impala. We didn't want to probably ever have our body back then. So, when we let this time, my head flew into the windshield. As my head was going through, the rear edge of the head had come up and my face head for the edge of the head directly between my two eyes, puncturing my skull and leaving a hole through my skull the size of a dime. Of course, I was unconscious. I was in a coma for a long time. Had during this time, I experienced what Catherine had spoken about. I saw the very bright room. I experienced the presence of intelligent beings. Although I couldn't visualize their faces, I recognized their human like forms. They spoke to me, not verbally—but through telepathy, and told me that I was not going to die... that I had something to accomplish, something to do.

Minutely, I did not die. When I have thought that we really moved up from these lower vibrations, I was able, rather than a point to function as a normal human being. This to me is a miracle.

My head went the hole through the windshield and I was the head riding my forehead that rebounded me from bouncing through the windshield. But all a hole in my skull and put me into a coma.

Life After Death The Evidence:

The Case for the Afterlife Chris Carter, 2025-08-05 The evidence for an afterlife is vast varied and ancient Now meticulously compiled into one place this evidence can be critically evaluated to resolve the age old controversy of survival beyond death Equipping you with a tool kit drawn from science philosophy and legal reasoning Oxford educated philosopher Chris Carter facilitates a thorough examination of the evidence and its corresponding counterarguments Explore compelling case studies of near death experiences deathbed visions apparitions children who remember a previous life and communications from the deceased With findings that cannot be explained away by fraud mistaken eyewitness testimony incompetence or extrasensory perception ESP this book proves beyond all reasonable doubt that our consciousness endures past bodily death The most factually based and rationally argued treatise I have ever read Reading this book will be a mind blowing clarification Ervin Laszlo author of Science and the Akashic Field

Life Is Forever Susy Smith, 1999-12 This is a well documented highly entertaining book giving case histories that prove there is evidence that life is forever The Susy Smith Project at the University of Arizona is at present acknowledged as the source of the Afterlife Codes research but Susy Smith herself had established a reputation as a writer of critical and objective books in the psychic field many years before she established the Survival Research Foundation and evolved the idea of scientific study of the possibility of communication from the dead by codes When writing Life is Forever published originally in 1974 Miss Smith made a comprehensive search of all the literature of the psychic field and chose the best example of each type of experience deathbed vision ghosts with a goal guardian angels possession voice phenomena and all the other curious and interesting means by which dead or dying people managed to provide evidence of their continued existence This important book has been out of print too long It will be welcomed back Visit the Afterlife Codes website of the Susy Smith Project at www.afterlifecodes.com

Science of Life After Death Alexander Moreira-Almeida, Marianna de Abreu Costa, Humberto Schubert Coelho, 2022-07-01 This book examines the best available empirical evidence regarding one of the most challenging and pervasive questions throughout ages cultures and religions the survival of human consciousness after death It begins with a contextual overview of belief in personal survival and refutes misguided historical and epistemological arguments against the notion of survival after death e g irrational purely religious impossible to be addressed by science that has been proved false by neuroscience The book provides an overview of the scientific evidence regarding the survival of human consciousness after death focusing on studies on mediumship near death and out of body experiences and reincarnation Featured topics of coverage include The belief in life after death in the contemporary world as well as in the history of religions and philosophy The key misguided arguments and prejudices against the academic study of afterlife survival What constitutes empirical evidence for survival after death The main explanatory hypotheses alternative to survival after death The chief cultural barriers to a fair examination of the available evidence for survival of consciousness after death Science of Life After Death is an essential resource for

D'Souza, 2009-11-02 Unlike many books about the afterlife Life after Death makes no appeal to religious faith divine revelation or sacred texts Drawing on some of the most powerful theories and trends in physics evolutionary biology science philosophy and psychology D Souza shows why the atheist critique of immortality is irrational It is not only reasonable to believe in life after death it is also beneficial Such a belief gives depth and significance to this life a path to happiness and reason for hope **To Hell and Back** Maurice Rawlings, 1993 Life After Death Startling New Evidence Evidence that not all near death experiences are positive Some patients spoke of going to hell rather than heaven during times when they were clinically dead **The Everything Guide to Evidence of the Afterlife** Joseph M. Higgins, Chuck Bergman, 2011-02-14 Is there life after death Or is the end of our physical existence really the end of us In this thought provoking guide you will examine scientific evidence so you can decide for yourself whether or not there is an afterlife Psychic Cop Chuck Bergman and medium Joseph Higgins attempt to answer questions like Does consciousness survive death Is communication possible between the living and the dead Are mediums real or frauds What happens to us during near death experiences Where do we go when we die Are Heaven and Hell actualities What is life like after death Is reincarnation real and is everyone reincarnated Including an overview of various religious afterlife traditions this guide introduces you to the unlimited possibilities of what we face after our release from the physical world **The Scile Experiment** Grant Solomon, 2006-04

The Afterlife Experiments Gary E. Schwartz, William L. Simon, 2002-03-13 An esteemed scientist's personal journey from skepticism to wonder and awe provides astonishing answers to a timeless question Is there life after death Are love and life eternal This exciting account presents provocative evidence that could upset everything that science has ever taught Daring to risk his worldwide academic reputation Dr Gary E Schwartz along with his research partner Dr Linda Russek asked some of the most prominent mediums in America including John Edward Suzane Northrup and George Anderson to become part of a series of extraordinary experiments to prove or disprove the existence of an afterlife THE AFTERLIFE EXPERIMENTS This riveting narrative with its electrifying transcripts puts the reader on the scene of a breakthrough scientific achievement contact with the beyond under controlled laboratory conditions In stringently monitored experiments leading mediums attempted to contact dead friends and relatives of sitters who were masked from view and never spoke depriving the mediums of any cues The messages that came through stunned sitters and researchers alike Here as they unfolded in the laboratory setting are uncanny revelations about a son's suicide what a deceased father wanted to say about his last days in a coma the transformation of a man's lifelong doubts about the afterlife and most amazing of all a forecast of a beloved spouse's death Dr Schwartz was forced by the overwhelmingly positive data to abandon his skepticism reaching some startling

conclusions Compelling from the first page to the last *The Afterlife Experiments* is the amazing documentation of groundbreaking experiments you will never forget *Life After Death* Jan W. Vandersande, 2008 Renowned physicist Vandersande surveys evidence for an afterlife and finds a lot of the observed physical phenomena both credible and compelling Intended for skeptics and believers alike this text condenses more than 100 years of literature and testimony

Life After Death Tom Harpur, 1991 Looks at death and immortality from both a secular and a religious viewpoint and discusses near death experiences purgatory reincarnation and the viewpoints of non Christian faiths **The Myth of an Afterlife** Michael Martin, Keith Augustine, 2015-03-12 Because every single one of us will die most of us would like to know what if anything awaits us afterward not to mention the fate of lost loved ones Given the nearly universal vested interest in deciding this question in favor of an afterlife it is no surprise that the vast majority of books on the topic affirm the reality of life after death without a backward glance But the evidence of our senses and the ever gaining strength of scientific evidence strongly suggest otherwise In *The Myth of an Afterlife The Case against Life after Death* Michael Martin and Keith Augustine collect a series of contributions that redress this imbalance in the literature by providing a strong comprehensive and up to date casebook of the chief arguments against an afterlife Divided into four separate sections this collection opens with a broad overview of the issues as contributors consider the strongest evidence of whether or not we survive death in particular the biological basis of all mental states and their grounding in brain activity that ceases to function at death Next contributors consider a host of conceptual and empirical difficulties that confront the various ways of surviving death from bodiless minds to bodily resurrection to any form of posthumous survival Then essayists turn to internal inconsistencies between traditional theological conceptions of an afterlife heaven hell karmic rebirth and widely held ethical principles central to the belief systems supporting those notions In the final section authors offer critical evaluations of the main types of evidence for an afterlife Fully interdisciplinary *The Myth of an Afterlife The Case against Life after Death* brings together a variety of fields of research to make that case including cognitiveneuroscience philosophy of mind personal identity philosophy of religion moralphilosophy psychical research and anomalistic psychology As the definitive casebook of arguments against life after death this collection is required reading for any instructor researcher and student of philosophy religious studies or theology It issues to raise provocative issues new to readers regardless of background from those who believe fervently in the reality of an afterlife to those who do not or are undecided on the matter **Is There Life After Death?** David Lester, 2014-09-17 People have believed in the existence of life after death throughout human history and in all regions of the world Mere belief however does not make it true What is the empirical evidence for life after death Has any significant research been conducted and if so what conclusions does it suggest In fact there exists a large body of research on topics relevant to the question of life after death This book objectively examines that research drawing together the observations of social science regarding such phenomena as reincarnation near death experiences deathbed visions cases of

possession by dead spirits and apparitions of the deceased It considers possibilities including survival of consciousness and survival of personality and reflects on the logical problems inherent in any model of postmortem survival An extensive bibliography lists hundreds of studies of life after death phenomena

Life After Death Beyond Doubt: How My Spirit Guide Gave Me Factual Evidence of My Previous Life on Earth Susan Starkey, 2018-01-30 There is one universal question to which there seems to be no definitive answer what happens to us when we die Many people have their own individual theories different faiths have different beliefs The rest of us we can merely shrug and resign ourselves to the fact that we can never know the unknowable Just a few years ago Susan Starkey would have felt the same way But following a move to Spain a sequence of astonishing events changed her life dramatically turning her scepticism on its head especially regarding the question of what happens to us when we die Starkey is now convinced that there is a life after death this book reveals her personal experiences and shares the verifiable evidence of her discoveries In this profound story Susan Starkey explains how she uncovered the roots to her past life along with a vast family network that had been lost to her for centuries She shares her ability to contact the Spirit World through a new found ability to communicate through automatic writing *Life After Death Beyond Doubt* is a remarkable and insightful guide to the afterlife one which will bring comfort to others who may be searching for the answers that Susan Starkey has been given Her work may prove beyond doubt that there is an existence after death and that we never truly die

The Case for Heaven Lee Strobel, 2021-09-14 Bestselling and award winning author Lee Strobel interviews experts about the evidence for the afterlife and offers credible answers to the most provocative questions about what happens when we die near death experiences heaven and hell We all want to know what awaits us on the other side of death but is there any reliable evidence that there is life after death Investigative author Lee Strobel offers a lively and compelling study into one of the most provocative topics of our day Through fascinating conversations with respected scholars and experts a neuroscientist from Cambridge University a researcher who analyzed a thousand accounts of near death experiences and an atheist turned Christian philosopher Strobel offers compelling reasons for why death is not the end of our existence but a transition to an exciting world to come Looking at biblical accounts Strobel unfolds what awaits us after we take our last breath and answers questions like Is there an afterlife What is heaven like How will we spend our time there And what does it mean to see God face to face With a balanced approach Strobel examines the alternative of Hell and the logic of damnation and gives a careful look at reincarnation universalism the exclusivity claims of Christ and other issues related to the topic of life after death With vulnerability Strobel shares the experience of how he nearly died years ago and how the reality of death can shape our lives and faith Follow Strobel on this journey of discovery of the entirely credible believable and exhilarating life to come

Objective Evidence for Life After Death Alfred W. Martin, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally

important we have made it available as part of our commitment for protecting preserving and promoting the world's literature in affordable high quality modern editions that are true to the original work Life After Death Book I, Powerful Evidence, and Book II, Heaven and Hell Stephen Hawley Martin, 2017-07-22 The two books in this volume reveal what every human living today needs to know about life after death Book One lays out indisputable evidence the brain does not create your consciousness and that when your body dies your consciousness will be released into a mental realm It explains what you can expect to experience during the first minutes until you come to a border near death survivors agree is a point of no return Book Two will lead you past that border to explore that Shakespeare called The undiscovered country a mental realm each individual creates for him or herself It also makes suggestions about actions to take now to insure the best possible outcome after death Read what reviewers had to say about Book I Extraordinary findings in Stephen Martin's newest book Life After Death Powerful Evidence You Will Never Die will keep readers on the edge of their seats as they burn through this well written book's pages Mark Davis M D If you only read one book about the afterlife I highly recommend this one It's an extensive research project and is quite understandable for the average reader Alan Halverson I couldn't put this book down I'm 34 years old with no major health issues and have been recently dealing with a lot of anxiety over death Nicole Ryan This is one of the most powerful books on this subject that I have ever read Very inspiring C Ann Clarkon Very accessible and well written overview of recent research supporting evidence of consciousness existing independent of the brain as well as its implications for survival of awareness after physical death Keith Park Ph D **Immortal Remains** Stephen E.

Braude, 2003-04-16 Do you believe in ghosts Chances are you're either too willing or not willing enough to believe that personal consciousness survives after bodily death Some underestimate the evidence for life after death not realizing how impressive the most convincing cases are Others overestimate it rejecting alternative explanations too readily In fact several non survivalist explanations hidden or latent linguistic or artistic talents extreme memory even psychic abilities are as interesting as the hypothesis of survival and may be more plausible than their critics realize Immortal Remains takes a fresh look at some of the most puzzling cases suggesting life after death and considers how to tell evidence for an afterlife from evidence for exotic things including psychic things done by the living Author Stephen E Braude who has done extensive research in parapsychology and dissociation explores previously ignored issues about dissociation creativity linguistic skills and the nature and limits of human abilities He concludes that we have some reason finally for believing in life after death

An Atheist in Heaven Paul J. Davids, Gary E. Schwartz, 2016-04-04 This non fiction book with contributions from scientists examines the strange case of apparent afterlife communication from Forrest J Ackerman a luminary in the early history of science fiction who was a noted atheist The case provided evidence of afterlife communication in the form of physical phenomena highly improbable synchronicities communications via some of the best research mediums instrumental trans communication using technological devices which produced measurable effects Ackerman was a mentor to co author Paul

David's for over 40 years Co author Dr Gary Schwartz of the University of Arizona in Tucson has studied evidence for life after death at his Laboratory for Advances in Consciousness and Health for over 15 years Chemist Dr John Allison The College of New Jersey determined after 3 years of research that physical evidence in the case was a genuine mystery to science and he himself began experiencing unexplained phenomena while researching this evidence [Life After Death, Powerful Evidence You Will Never Die](#) Stephen Hawley Martin, 2017-02-14 What happens when we die This new edition of Life After Death adds to powerful evidence consciousness continues the author presented in his 2015 release He spent two years gathering information that demonstrates this and along the way interviewed more than a hundred experts in a number of different fields Among them were parapsychologists medical doctors psychologists psychiatrists quantum physicists and researchers into the true nature of reality Specific examples are presented that indicate what happens when we die for example that memories can be formed and retained despite a subject's brain having been shutdown and the blood drained from it Questions such as whether or not you will be able to communicate with living loved ones after death are addressed if it is possible to be reborn and what might be missing from reproductive theory to explain the various phenomena indicated in the many case histories and scientific investigations presented All of us will someday cross the border to what Shakespeare called The undiscovered country As long as we must make that trip wouldn't it be smart to find out where we are going and what to expect when we get there **Beyond Death** Gary R. Habermas, J. P. Moreland, 2004-01-29 Death and what lies beyond is not something you consider every day But the thought of it raises some intriguing questions Are there good reasons for believing in life after death What is the afterlife like How valid are the reports of near death experiences Do heaven and hell exist And if so how can hell be reconciled with a loving God By sharing the very latest scientific philosophical anthropological ethical and theological evidence on life after death noted Christian scholars Habermas and Moreland present a strong case for immortality with this book They begin by taking up the question of whether life after death is real and what evidence supports its reality They then explore what the afterlife is like and go on to show how having this reality in your future should affect the way you live here and now This book will reassure you that there's no need to fear death as long as you're prepared eternity that follows It's also a great aid in developing a serious biblical rational and even scientific defense for the belief in life beyond the grave
