Michaels Awakening English Edition:

The Music Trade in Georgian England Michael Kassler, 2017-07-05 In contrast to today's music industry whose principal products are recorded songs sold to customers round the world the music trade in Georgian England was based upon London firms that published and sold printed music and manufactured and sold instruments on which this music could be played The destruction of business records and other primary sources has hampered investigation of this trade but recent research into legal proceedings apprenticeship registers surviving correspondence and other archived documentation has enabled aspects of its workings to be reconstructed The first part of the book deals with Longman Broderip arguably the foremost English music seller in the late eighteenth century and the firm's two successors Broderip Wilkinson and Muzio Clementi's variously styled partnerships who carried on after Longman Broderip's assets were divided in 1798 The next part shows how a rival music seller John Bland and his successors used textual and thematic catalogues to advertise their publications This is followed by a comprehensive review of the development of musical copyright in this period a report of efforts by a leading inventor Charles 3rd Earl Stanhope to transform the ways in which music was printed and recorded and a study of Georg Jacob Vollweiler's endeavour to introduce music lithography into England The book should appeal not only to music historians but also to readers interested in English business history publishing history and legal history between 1714 and 1830

The Routledge Research Companion to Johann Sebastian Bach Robin Leaver, 2016-11-25 The Ashgate Research Companion to Johann Sebastian Bach provides an indispensable introduction to the Bach research of the past thirty-five years It is not a lexicon providing information on all the major aspects of Bach's life and work such as the Oxford Composer Companion J S Bach Nor is it an entry-level research tool aimed at those making a beginning of such studies The valuable essays presented here are designed for the next level of Bach research and are aimed at masters and doctoral students as well as others interested in coming to terms with the current state of Bach research Each author covers three aspects within their specific subject area firstly to describe the results of research over the past thirty-five years concentrating on the most significant and controversial such as the debate over Smend's NBA edition of the B minor Mass Blume's conclusions with regard to Bach's religion in the wake of the new chronology Rifkin's one-to-a-vocal-part interpretation the rediscovery of the Berlin Singakademie manuscripts in Kiev the discovery of hitherto unknown manuscripts and documents and the re-evaluation of previously known sources Secondly each author provides a critical analysis of current research being undertaken that is exploring new aspects reinterpreting earlier assumptions and/or opening up new methodologies For example Martin W B Jarvis has suggested that Anna Magdalena Bach composed the cello suites and contributed to other works of her husband another controversial hypothesis whose newly proposed forensic methodology requires investigation On the other hand research into Bach's knowledge of the Lutheran chorale tradition is currently underway which is likely to shed more light on the composer's choices and usage of this tradition Thirdly each

author identifies areas that are still in need of investigation and research Engaging Bach Matthew Dirst, 2012-03-29
