**Report** Partnership for Governance Reform in Indonesia, 2011 *Business, Compliance and Human Rights Law* Gabriel  
 Webber Ziero, 2021-12-28 In recent years transnational private regulations TPRs have gained importance in the areas of  
 business and human rights particularly from a consumer point of view However some question whether TPRs are indeed  
 suitable normative frameworks contributing to their signatory entities compliance with human rights standards and effective  
 avoidance of human rights abuses In response to this question this book proposes an analytical concept of effective  
 compliance Based on the elements identified as crucial for achieving effective compliance it conducts an in depth analysis of  
 how TPRs normative frameworks function in practice and identifies common patterns and challenges Such inquiry is based  
 on an interdisciplinary methodological approach between law and sociology seeking not only to comprehend and assess how  
 law is systematized in theoretical terms but also to understand how it works on the ground This allows identification of the  
 lack of active and effective participation of vulnerable stakeholders in the discursive processes established and governed by  
 TPRs such as rule making and conformity assessment processes as the main challenge Based on such evidence the book  
 addresses the possibilities of overcoming such challenges proposing that to fully achieve TPRs potential from an effective  
 compliance point of view legal empowerment of vulnerable groups is essential It concludes by providing key observations and  
 suggestions that contribute to the use of TPRs as instruments in the struggle for rights of empowered vulnerable  
 stakeholders The book will be of interest to academics researchers and policy makers working in the areas of international  
 law transnational law sociology of law and human rights law *The Planter*, 2004 Mergent International News Reports
