The New iPad Fully Loaded Alan Hess, 2012-05-15 A comprehensive guide to using the iPad that explains how to use the tablet computer's main functions highlights features such as remote desktop access applications for travel social media and more and offers troubleshooting tips *IPad 2 All-in-One For Dummies* Nancy C. Muir, Jesse Feiler, 2012-02-07 A comprehensive guide to using an iPad 2 focusing on buying browsing the Web playing music and other topics *iPad For Seniors For Dummies®* Nancy C. Muir, 2011-05-12 The fun and easy way to make the most of your iPad or iPad 2 Versatile portable and lightweight the iPad is an ideal device for today's seniors This basic guide sports a senior friendly larger font size and plenty of illustrations that make learning to use the iPad and iPad 2 easy You'll first learn to set up your iPad get familiar with the touchscreen interface and explore accessibility features Then you'll learn to browse the Internet with mobile Safari use maps set up and manage your e-mail buy and read e-books download and play music and movies work with photos make FaceTime video calls and discover how to extend the iPad's capability even more with apps Covers iPad and iPad 2 With its ability to function as an e-reader a music and movie player a photo viewer and a mini computer the iPad offers everything seniors need in a lightweight and portable device This senior friendly book explains what to look for when shopping for an iPad how to set one up and how to use the touchscreen interface Covers accessing the Internet using FaceTime for video chat sending and receiving e-mail buying and reading e-books downloading music and movies purchasing apps taking and sharing photos recording HD video getting directions and using maps and much more Provides safety and troubleshooting tips and advice on keeping your iPad happy The iPad combines the best of your favorite gadgets into one amazing device whatever you want your iPad to do the fun starts with this book [Google Nexus 7 Tablet](#) Chris Fehily, 2012-10-29 This Visual QuickStart Guide will help you get up and running with the Nexus 7 Google's much anticipated entry into the tablet market This guide connects all the capabilities of the Nexus 7 for you using full color images and step by step instruction You'll learn how to tap and swipe search and use voice control find the best apps read books watch movies and listen to songs Along the way you'll pick up indispensable tips for getting the most out of your tablet *Apple Device Management* Charles Edge, Rich Trouton, 2019-12-17 Working effectively with Apple platforms at a corporate or business level includes not only infrastructure but a mode of thinking that administrators have to adopt to find success A mode of thinking that forces you to leave 30 years of IT dogma at the door This book is a guide through how to integrate Apple products in your environment with a minimum of friction Because the Apple ecosystem is not going away You'll start by understanding where Apple third party software vendors and the IT community is taking us What is Mobile Device Management and how does it work under the hood By understanding how MDM works you will understand what needs to happen on your networks in order to allow for MDM as well as the best way to give the least amount of access to the servers or services that's necessary You'll then look at management agents that do not include MDM as well as when you will need to

use an agent as opposed to when to use other options Once you can install a management solution you can deploy profiles on a device or you can deploy profiles on Macs using scripts With Apple Device Management as your guide you ll customize and package software for deployment and lock down devices so they re completely secure You ll also work on getting standard QA environments built out so you can test more effectively with less effort Apple is forging their own path in IT They trade spots with Amazon Google and Microsoft as the wealthiest company to ever exist And they will not be constrained by 30 or more years of dogma in the IT industry You can try to shoehorn Apple devices into outdated modes of device management or you can embrace Apple s stance on management with the help of this book What You ll Learn Deploy profiles across devices effectively and securely Install apps remotely both from the app store and through custom solutions Work natively with Apple environments rather than retrofitting older IT solutions Who This Book Is For Mac administrators within organizations that want to integrate with the current Apple ecosystem including Windows administrators learning how to use manage Macs mobile administrators working with iPhones and iPads and mobile developers tasked with creating custom apps for internal corporate distribution
