Honour Based Crimes and the Law Mukaddes Gorar, 2021-05-10 Honour based violence and abuse manifests itself in different forms and this book offers a comprehensive understanding of this phenomenon This

book argues that the limits of honour crimes must be defined more widely so that they include conducts and behaviours that originate from the patriarchal notion of honour such as honour based oppression and breast ironing The book provides a critical analysis and synthesis of the law in England and Wales and in the international human rights sphere The relevant domestic legislation and cases are examined to reflect on whether adequate protection is provided for the victims and potential victims of honour based violence and abuse Since honour based violence is a violation of human rights the relevant international human rights law is examined to illustrate the perception of such crimes in the international arena The effectiveness of any remedy for victims of honour based violence and abuse depends on its capability to change deep rooted behaviours in communities with honour based patriarchal values This book argues that the law does not provide the effective impact required in part due to patriarchal structures and that more efforts should be dedicated to changes in education It is held that there is a need for an educational programme that is especially designed to tackle violence and promote gender equality The book will be essential reading for academics researchers and policy makers working in the areas of Human Rights Law Criminal Law and Gender Studies

Business, Organized Labour and Climate Policy Peter Glynn, Timothy Cadman, Tek Narayan Maraseni, 2017-04-28 This impartial study analyses the role of employer s organisations and trade unions in climate change policy and its impacts on the labour market The policies of government to manage greenhouse gas emissions will require business to change its product and service delivery arrangements which in turn means labour requirements will also change The book also considers whether labour market issues should be explicit in the theoretical framework of ecological modernisation as it guides the policy development process
