Page 8

While Tita was singing and waving her wet hand in time, showering drops of water down on the griddle so they would "dance," Rosaura was cowering in the corner, stunned by the display. Gertrudis, on the other hand, found this game enticing, and she threw herself into it with the enthusiasm she always showed where rhythm, movement, or music were involved. Then Rosaura tried to join them..... The momentum carried Rosaura's hands onto it.

(Comments: You may want to shorten up the passage to which you are responding. Use three ellipses [periods] to delete information within a sentence. Use four ellipses to leave out information within a paragraph but across one or more sentence boundaries.)

Sample Response 1

I remember doing this as a child. My sister and I said the water was ice-skating. I tried to do it the other day but it didn't work.

(Comments: This is related to the topic, but it is too short. It lacks depth of thought and development. To me this entry looks a little confused, lazy or rushed. This response would receive about 2 or 3 points.)

Sample Response 2

Tita was showing her sisters how to have some fun dropping water onto a hot cooking surface to see the water drops float across the surface. Gertrudis enjoyed this activity because they did it while dancing. Rosaura was afraid to try it, so when Tita tried to force her, Rosaura burned her hands. I think Tita and Rosaura are very different people and will not get along very well.

Literacy and Learning in the Content Areas Sharon Kane, 2017-07-05 The 3rd Edition of *Literacy Learning in the Content Areas* helps readers build the knowledge, motivation, tools, and confidence they need as they integrate literacy into their middle and high school content area classrooms. Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms. Rather than passively learning about strategies for incorporating content area literacy activities, readers get hands-on experience in such techniques as mapping, webbing, anticipation guides, booktalks, class websites, and journal writing and reflection. Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry, and online content communities and websites into their classrooms. Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening, and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks.

Farris, 2015-02-03 The latest edition of Pamela Farris's popular, value-priced text continues to offer pre- and in-service teachers creative strategies and proven techniques sensitive to the needs of all elementary and middle school learners. Fandom as Classroom Practice Katherine Anderson Howell, 2018-05-15 *Fandom as Classroom Practice* is an indispensable resource for teachers seeking to integrate fan works into their classroom experiences. This multivocal interdisciplinary collection offers thoughtful, self-reflexive pieces from student and faculty perspectives. Together, the essays in this collection paint a dynamic picture of the value and challenges of teaching with fan works within a variety of classroom contexts. Louisa Ellen Stein, author *Millennial Fandom: Television Audiences in the Transmedia Age*. This collection demonstrates that integrating fandom opens up new ways of thinking for students in a variety of disciplines. Syllabi and assignments provide hands-on guidance to teaching fandom and creating a participatory, decentered classroom. The inclusion of student respondents is a unique and important feature of this book. Melanie E. S. Kohnen, Lewis Clark College. Providing ways to engage students through their popular culture interests, this collection brings together several essays across disciplines to show how fan practices such as writing fan fiction, creating vids, communicating via Tumblr, and participating in film tourism can invite students to invest more of themselves into their education. Both scholarship and fandom encourage passionate engagement with texts rather than passive consumption in isolation, and editor Katherine Anderson Howell and her contributors find that when students are encouraged to partake in a remix classroom

that encourages their fan interests they participate more in their education are more critical of experts and authorities and actively shape the discourse themselves Creating this remix classroom requires thoughtfulness on the instructor's part and so the chapters in this volume come from teachers who have carefully constructed such courses including several The American Journal of Psychology Granville Stanley Hall, Edward Bradford Titchener, Karl M.
