Iran La Contreévolution Islamique:

La révolution sous le voile Fariba Adelkhah, 1991-01-01 La Révolution iranienne de 1978-1979 et le régime islamique qui en est issu n'ont pas fini de nous interpellier. Mais parmi les questions que nous nous posons légitimement leur sujet une seule vraie dire a passionné et passionne encore l'opinion occidentale c'est la question des femmes. Sujet populaire et toujours d'actualité mais galement chargé d'ambiguïté d'émotion de douleur voire de danger. Fariba Adelkhah a eu le courage de s'y attaquer et d'aller enquêter sur place en anthropologue en s'efforçant de résister à la simplicité trompeuse des thèses partisanses et des oppositions manichéennes. Aussi le travail qu'elle nous livre aujourd'hui tranche-t-il singulièrement par son sérieux et son originalité sur la littérature superficielle et de parti pris qui semblait régner jusqu'à présent dans ce domaine. Le résultat est une riche moisson d'observations et d'analyses sur l'idéologie et les pratiques des cercles féminins musulmans de la capitale iranienne. Fariba Adelkhah démontre notamment bien la double contradiction qui caractérise l'évolution du statut de la femme en Iran double contradiction dont la question du voile fournit une sorte de condensé de son incompréhension en Occident. Durant le règne des deux derniers Shah le dévoilement forcé des Iraniennes a contribué à accentuer leur enfermement dans le cadre familial l'inverse sous la République islamique c'est par le truchement de leur revoilement même contraint qu'elles ont pu accéder à un rôle croissant dans la vie de la Cité. De même Fariba Adelkhah nous fait découvrir que les femmes qu'elle étudie ont vécu et perçu la Révolution non seulement comme un mouvement de contestation de l'ordre impérial mais aussi et surtout comme un outil de laboration d'un autre ordre social et notamment d'une nouvelle identité féminine. Pour avoir su résister aux sirènes de la facilité Fariba Adelkhah sera néanmoins violemment contestée tant par les uns qui l'accuseront de tiédeur suspecte que par les autres qui lui reprocheront des sympathies coupables. Mais qu'elle ne s'en meuve pas bien au contraire ces attaques seront le plus bel hommage qui pourra être rendu son livre.

The Iranian Revolution John L. Esposito, Middle East Institute (Washington, D.C.), Royal Institute of International Affairs, 1990. A wonderfully concise yet complete survey of the background and status of Islamic revivalism in all of its various forms in each region. SAIS Review. A rich and thoughtful study of one of the most significant events of recent times. School of Oriental and African Studies Bulletin. Marking the tenth anniversary of the Ayatollah Khomeini's triumphant return to the Islamic Republic of Iran 1989 proved a benchmark year in Iran's history with the condemnation of author Salman Rushdie to execution the denunciation of Iranian liberals and the West the removal of Khomeini's chosen successor and the death of Khomeini himself. John L. Esposito introduces The Iranian Revolution with an explanation of why the present is a turning point for Iran. He isolates the export of Islamic revolution as central to the Republic's character. A concise description of the complexities of that issue is followed by a discussion of its effects within and outside Iran with the majority of the collection then devoted to insightful analyses of the Republic's impact throughout the Islamic world. International experts from Iran Europe Africa and the United States assess worldwide impact of the Iranian Revolution on other Muslim societies and give us a remarkable analysis of the status of Islamic revivalism in a far

The Iranian Revolution Charles River Editors, 2014-07-28 Includes pictures Profiles Ayatollah Khomeini and his ideology and leadership before during and after the Revolution Highlights the causes key events and effects of the Revolution Includes footnotes and a bibliography for further reading The Iranian Revolution of 1979 has been described as an epochal event called the peak of 20th century Islamic revivalism and revitalization and analyzed as the one key incident that continues to impact politics across Iran the Middle East and the even the world as a whole As a phenomenon that led to the creation of the first modern Islamic Republic in the world the revolution marked the victory of Islam over secular politics and Iran quickly became the aspiring model for Islamic fundamentalists and revivalists across the globe regardless of nationality culture or religious sect When Ayatollah Khomeini was declared ruler in December 1979 and the judicial system originally modeled on that of the West was swiftly replaced by one purely based on Islamic law much of the world was in shock that such a religiously driven revolution could succeed so quickly especially when it had such sweeping consequences beyond the realm

of religion. Revolutions are nothing new but most revolutions especially those in the West have tended to remain secular. Even when religious ideology and themes were present as in the English Civil War of the 1640s these were not dominant driving forces behind the revolution nor were they a significant factor in its immediate results. Even outside the West this has mostly proven to be true: the nationalist revolution and war for independence in Turkey led by Mustafa Kemal Atatürk was a battle for separation of church and state that called for democratic principles of equality and the result was the formation of a modern and secular Turkey. However the revolution that swept across Iran proved to be starkly different from past revolutions of the world. Its most influential leaders came from the orthodox clergy and its most pronounced important goals were the ouster of the monarch who was deemed anti-Islam and blasphemous and the complete return of Iranian government and society to fundamental Islamic principles. As one of the leading scholars on Iran Nikki R. Keddie wrote this revolution was aberrant, refusing to fit into the theoretical and academic ideas of what modern revolutions should be like. Yet there is no doubt that the Iranian Revolution ultimately led to a complete overhaul and restructuring of the age-old political, economic, social, religious, and ideological orders in Iran. Former Iranian Finance Minister Jahangir Amuzegar put it aptly: The historical oddity, if not uniqueness, of the Iranian revolution can be seen in its four salient features: its unforeseen rapid rise, its wide base of urban support, its vague ideological character, and above all, its ultimate singular objective to oust the Shah. Furthermore, while the focus of the revolution was primarily about Islam, the revolution was also colored by disdain for the West, distaste for autocracy, and a yearning for religious and cultural identity. Though these are features of many other revolutions, the Iranian one was particularly unprecedented in the suddenness and rapidity of its occurrence as well as the sheer amount of mass popular support it gained. Much of the world, including the U.S. and its Western allies, were initially caught off guard by the sudden occurrence and unanticipated strength of the revolution.

The Islamic Revolution That Reshaped the Middle East explores the events leading up to the Iranian Revolution as well as the political, economic, social, and religious characteristics of Iran before 1979. It also looks at the revolution and the lasting influence it has had both domestically and globally.

Islam and Dissent in Postrevolutionary Iran Behrooz Ghamari-Tabrizi, 2008-04-08

The Islamic Republic of Iran came into being in 1979, the result of a radical revolution that overhauled not only the foundations of Iranian society, religion, and politics but also our understanding of the role of religion in modern government. Here Behrooz Ghamari-Tabrizi takes us on an enlightening journey showing that contrary to widespread assumptions, the Iranian revolution opened up the public sphere to competing interpretations of Islam with profound consequences for the nature of democratic reform. Ghamari-Tabrizi sheds new light on the contingencies within which the new regime evolved and traces the steps by which the clerical establishment sought to consolidate power during the immediate postrevolutionary period. Contrary to the received view, he argues that the ruling class failed to institute a theocratic regime and more significantly, unintentionally established the grounds for civic challenges to government policies underwritten by official interpretations of Islam. Far from

being the exclusive preserve of high ranking seminarians interpretations of doctrinal Islam in contemporary Iran now form a contested varied and negotiated discourse in which lay theologians intellectuals lawyers and social activists are active and influential interlocutors Against the background of this unexpected development Ghamari Tabrizi addresses the early and late works of Abdolkarim Soroush an Iranian philosopher who has become one of the most influential Muslim intellectuals in recent years a leading force behind Iran's pro democracy movement and vocal critic of the state Through a close reading of Soroush's evolving ideas and of the works of Ali Shari'ati and by tracing the links between Muslim intellectual critique and the realpolitik of postrevolutionary power struggles Ghamari Tabrizi offers nothing less than a pathbreaking reassessment of the Iranian revolution In so doing he demonstrates how democratic transformation in Muslim societies has taken place by means of a public engagement with the teachings of Islam and highlights a most significant if unintended consequences of the Iranian revolution namely the secularization of Islam Drawing on a wealth of sources and with powerful insights Islam and Dissent is essential for an understanding of the Muslim world today and of the new relationships between religion culture and political power visible across the globe

Iran's Islamic Revolution Suroosh Irfani, 1983 An account and analysis of the Iranian Revolution of 1979 by an observer who lived in Iran for many years and was present at the time The author places the Revolution in the context of a history of the various progressive Islamic movements in Iran which he argues have been inspired by a radical interpretation of Islam

The Islamic Revolution in Iran Hamid Algar, Kalim Siddiqui, 1980

IRAN Morris Mottale, 1995 This book fulfills a need for a concise comprehensive work on the Iranian Islamic Revolution an event that has often been placed in the classificatory context of the greater and lesser revolutions of the 20th century The Iranian revolution in the late 20th century has acquired a special significance because of the rise of the so called Islamic fundamentalism The Iranian experience was the first political experiment to reflect this

phenomenon and it is crucial for students of the subject to understand the details of Khomeini's experiment. The revolution in Iran foreshadowed the clash between modernity and tradition that has now engulfed North Africa and the Middle East. The phenomenon of Khomeini challenges many of the assumptions that have underlined theories and models of progress and development in the Western and non-Western world. Iran: The Political Sociology of the Islamic Revolution brings this critical topic skillfully to the forefront. **Islam and the Post-revolutionary State in Iran** Homa Omid, 1994-01-01

The Iranian revolution is the first example of a successful political takeover by a religious institution in the Middle East. This volume traces the roots of the revolutionary powers of the ulama, religious leaders, and engages critically with their perspectives on an Islamic government and economy. The author argues that the uneasy alliance between the intelligentsia and the ulama, which has fuelled two successful revolutions in twentieth-century Iran, has always contained irresolvable tensions. These continue to pull national politics in contradictory directions in the post-revolutionary period. On coming to power, the Islamic government has had to contend with these conflicting forces as well as having to accommodate the loose collegial cooperation that had existed amongst religious leaders. In addition, the young zealous revolutionaries have also extracted the right to dictate terms to the post-revolutionary state. The result has been a profusion of command structures with administrative units duplicating one another's duties. Even the armed forces have been replicated with the creation of the revolutionary guard corps, and this has added an enormous burden of expenditure to the tottering budget. It is the contention of the author that the failure to rationalise the administrative organisation has resulted in bureaucratic bungles and an increase in poverty. In the 1990s, the government has reneged on its avowed Islamic promises and its commitment to remaining independent from the West. Iran has returned to the fold of the debtor nations and, having borrowed from the World Bank, has had to agree to reorganise its economy and introduce some structural adjustments. Less than fifteen years after the revolution, there is little left of the original Islamic ideals sought by the theocracy in Iran. The only tokens of Islamification have been the imposition of the veil and the systematic exclusion of women from much of the public domain.

La révolution iranienne ne doit pas être envisagée à l'aune des révolutions classiques. Elle n'entend pas fonder un état social plus juste, mais restaurer un passé mythique lié aux premières années de l'islam et établir un État fondé sur les seules valeurs religieuses. Analysant les fondements et les mécanismes de la théocratie iranienne, cet essai démontre que l'islamisme entend transformer la société conformément ses objectifs politiques, lesquels relèvent d'une conception indubitablement totalitaire. **The Wrath of Allah** Ramy Nima, 1983.
