**Food as a Mechanism of Control and Resistance in Jails and Prisons** Salvador Jiménez Murguía, 2018-02-19 Murguía explores food and foodways within institutions of incarceration Food like all resources within total institutions is vulnerable to social manipulation Within jail and prison settings food becomes both a mechanism of control and resistance In the former the type of food its quality its quantity and the symbolic significance of its presence or absence all contribute to the socio political experience of the incarcerated perhaps even adding an extra form of punishment to one's sentence not measured in time but rather in terms of cruelty In the latter the incarcerated may view the preparation of food the innovation it may undergo its consumption or even the refusal of its consumption along these same socio political lines Thus viewing food within jail and prison as social facts that engender real consequences reveals a virtually uncharted area of research for understanding the intersection between food and life within the confines of incarceration Of this line of inquiry Murguía asks how food is employed as a means to control prisoners and conversely how do prisoners employ food in the service of resistance As his analysis suggests this text emphasizes a need to advance a broader discussion about the diets of prisoners

[The Prison Cookbook](#) C. J. Green, 2015-08-14 The Microwave Gourmet Cookbook The central concept behind the Microwave Gourmet was to develop a list of recipes that all of us could use in a pinch when we want a delicious meal but are limited on time and materials Cooking with microwaves is

almost looked down upon by chefs and professionals in food preparation People seem to have a predisposition to assume microwave food is fast and cheap as if to prepare food in a microwave damns that food to be mediocre and unfulfilling We say You re just not cooking the right things Well we re about to change all that These are some of the most tasteful and enjoyable recipes we have experimented with and we think you ll really appreciate both the flavor and effortlessness of them Will this book make you a food Genius Perhaps it will Will it give you decadent food weapons to use in a pinch Definitely How do we know this book really works Because C J s brother is currently finishing up a 14 year sentence for conspiracy C J wrote this book after his brother asked him for recipes he could use in a common microwave So this is what C J developed with the help of many great chefs But this book is for all of us in a bind or not So if you know somebody who doesn t respect the power and capabilities a microwave take some of these recipes create an incredible dinner and invite them over Once they finish the meal sitting back with glee and bliss you can tell them you made this entire meal in a microwave You will reign as culinary king or queen among the people Here are just a few of the things you ll learn to prepare in short minutes Entrees Risotto Enchiladas Roasted garlic Sour cream and onion veggie chips Sweet potatoes Ropa Vieja Chicken Dumplings Ratatouille Macaroni Cheese Lemon Horseradish Sole Loaded Baked Potato Salmon en Papillote Chicken Penne Al Fresco Fried Rice Breakfast Egg whites and cheese breakfast sandwich French toast Scrambled eggs Bacon English muffins Mason jar pancakes Desserts Toasted Nuts Baked Apples in a Bag Monkey Bread Cinnamon Roll Vegan Coffee Cake Granola Lemon bars Peanut brittle Mug cake Chocolate peanut butter mug cake Chocolate Chip Cookies So let s begin     *Mad Dogs Favorite Prison Recipes* Daniel M. Allen, 2011-07-17 INTRODUCTION These recipes are the result of years of hard labor personal risk and great treachery To get these recipes involved savage coercion and brutality Once I almost killed a man just to learn the secret of his fondue And now for the first time ever I literally drag these guarded treasures from their steel lock boxes for your own pleasure and amusement During my cruel retreat at Club Fed I observed two main types of eaters The first and smaller group is the prison gourmets These folks take great pride in cooking Their delicious banquet spreads are part of a larger cultural ritual Ethnic groups such as Latinos and Asians often celebrate a rich culture of good food that is carried over into prison life Here it is a part of their regular social cohesion To see this type of eater cooking is like watching a chef at work in a bistro Producing a meal may take all afternoon and involve a small army of participants They can be seen around the microwave stirring taking a taste of this and adding a pinch of that The result is extraordinary fare but there are downsides Prison gourmets do not settle for the usual commissary items they use special channels to get special ingredients Utilizing contacts across the compound they come up with a full array of fresh meats cheeses vegetables and spices that others may have trouble getting Their utensils and cookware are also contraband Another downside for the average schlub is that this style of cooking takes a long time The other common type of eater the largest group is the lazy uncreative fraternal type These people just kick in whatever they have lying around and make a communal pile The stuff is all blended together

and doled out in bowls The typical ingredients are roast beef turkey log canned chili refried beans cheese spread and onions all melted over chips This nameless potluck comfort food is usually pretty good But it too has downsides It is easy for this style of cooking to become a big fiasco It is never clear who contributed what if anything and who is suppose to cook or clean Another problem is that people are not all hungry at the same time or for the same exact thing The potluck method gets old too After all it s just the same old ingredients reshuffled in differing volumes Aside from these few small objections there is nothing particularly wrong with either type of eater If either of these two scenarios appeals to you then federal prison is your dream come true On the other hand if you are independent and self sufficient with discriminating taste this book was written for you The overwhelming majority of ingredients described in this book are things that any federal inmate can legally purchase at their commissary A few of the items may not be widely available these are noted for your consideration Each recipe here was personally prepared often multiple times in order to fine tune every step Details were recorded in a simple yet scientific way for your convenience Finally a panel of very tasteful and elite inmate critics sampled each dish and gave honest almost caveman like opinions and suggestions Only those recipes which met broad favor were included Most of these items are very good many are quick economical and clever I know that you will carry these tricks with you back into the free world They will be fun to teach to your kids and use to impress your camping partners I hope that you enjoy sampling these goodies as much as I did extorting them from others Bon App tit Mad Dog
