James River English Edition:

The Book lover, 1902 [Scaffolding: Selected Contributions of James R. Griesemer to History, Philosophy, and Biology](#)
Rachel A. Ankeny, Michael R. Dietrich, Sabina Leonelli, 2025-06-27 This book brings together some of Griesemer's most significant contributions for the first time making it widely accessible in a single collection Throughout his career James Griesemer has created an intellectual scaffold for major advances in the history and philosophy of biology His analyses of boundary objects units of selection reproducers models and scaffolds have served and continue to serve as sites of innovation for philosophers historians and biologists Griesemer's oeuvre does not form a mere collection of important essays on disparate and disconnected topics His works are best understood as units in a large philosophical puzzle amounting to an overarching vision of how humans understand life and use that understanding for intervention which in turn is grounded in a highly sophisticated historical and scientific understanding of the research practices in question With edits comments and an in depth introduction this book is of great interest to historians and philosophers of biology as well as science in general
