January 2014 Chemistry Markscheme:

Validating Technological Innovation David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process, demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

Organic Chemistry Education Research into Practice Jay Wackerly, Sarah Zingales, Michael Wentzel, Gautam Bhattacharyya, Brett McCollum, 2025-03-25 This Research Topic has three main goals: 1) provide a platform for instructors of organic chemistry to showcase evidence-based methods and educational theories they have utilized in their classrooms; 2) build new and strengthen existing connections between educational researchers and practitioners; and 3) highlight how people have used chemical education based research in their teaching practice. There are places in the literature dedicated for chemical education research CER, however, there is not a clear avenue for those that have changed their teaching methods based on published CER and report their experiences. Creating this article collection will foster collaboration between chemical education researchers and teachers of organic chemistry. This opportunity allows these instructors to share evidence-based practices, experiences, challenges, and innovative approaches from CER literature and beyond. This Research Topic bridges discipline-based education research and the scholarship of teaching and learning, which will help advance organic chemistry education and improve student outcomes.

Hong Kong Chronicles: Overview & Chronology Hong Kong Chronicles Institute, 2022-06-30 Overview Chronology is the first title of the book series Hong Kong Chronicles by Hong Kong Chronicles Institute. It presents a detailed overview of Hong Kong's local history and more than 6 500 major historical events taking place between ancient times and 2017. The book series consists of 66 volumes to be released in 42 books with 25 million words and completed in phases by 2027. It covers a historical timeline of 7 000 years from the New Stone Age 5 000 B.C. to the inauguration of the fifth term of the HKSAR government on July 1, 2017. It includes 10 major categories including nature, economy, culture, society, politics, and people, etc. Local chronicles have the important functions of preserving history, providing reference for policymaking, and educating the people. Through the compilation of local chronicles, it serves to seek out, preserve, and promote the stories of people, their socio-economic development, and way of life, as well as political structure. It plays an important role of cultural significance in driving the future by reflecting on the past. The book series is of profound historical significance and cultural value as an accurate, objective, systematic, and comprehensive record of 7 000 years of Hong Kong's transformation.
