Civic Education in the Twenty-First Century Donald M. Gooch, Michael T. Rogers, 2015-09-18 Imagine an America where politicians governmental institutions schools new technologies and interest groups work together to promote informed engaged citizens Civic Education in the Twenty First Century brings together scholars from various disciplines to show how such a United States is possible today Inspired by Alexis de Tocqueville s analysis of American democracy in the early 1800s this edited volume represents a multidimensional evaluation of civic education in its new and varied forms While some lament a civics crisis in America today Civic Education in the Twenty First Century raises hope that we can have an informed and active citizenry We find the activities of a number of politicians government institutions schools and interest groups as promising developments in the struggle to educate and engage Americans in their democracy New technologies and new innovations in civic education have laid the foundation for a revitalized American civic ecology With Civic Education in the Twenty First Century we call for the United States to make these practices less isolated and more common throughout the country The volume is broken into three major sections First there are four chapters exploring the history and philosophical debates about civic education particularly with respect to its role in America s educational institutions Then the second section provides seven groundbreaking inquiries into how politicians and political institutions can promote civic education and engagement through their routine operations As some examples this section explores how politicians through campaigns and judiciaries through community programs enhance civic knowledge and encourage civic engagement This section also explores how new technologies like the Internet and social media are increasingly used by government institutions and other entities to encourage a more politically informed and engaged citizenry Finally the third section contains six chapters that explore programs and practices in higher education that are enhancing civic education engagement and our knowledge of them From the virtual civics campus of Fort Hayes State to citizens academies throughout the country this section shows the possibilities for schools today to once again be civics actors and promoters

Out of Order Sandra Day O'Connor, 2013-03-05 NEW YORK TIMES BESTSELLER From the first woman to sit on the United States Supreme Court comes this fascinating book about the history and evolution of the highest court in the land A succinct snappy account of how today s court so powerful so controversial and so frequently dissected by the media evolved from such startlingly humble and uncertain beginnings The New York Times Out of Order sheds light on the

centuries of change and upheaval that transformed the Supreme Court from its uncertain beginnings into the remarkable institution that thrives and endures today From the early days of circuit riding when justices who also served as trial judges traveled thousands of miles per year on horseback to hear cases to the changes in civil rights ushered in by Earl Warren and Thurgood Marshall from foundational decisions such as Marbury v Madison to modern day cases such as Hamdi v Rumsfeld Justice O Connor weaves together stories and lessons from the history of the Court charting turning points and pivotal moments that have helped define our nation s progress With unparalleled insight and her unique perspective as a history making figure Justice O Connor takes us on a personal exploration painting vivid pictures of Justices in history including Oliver Wendell Holmes Jr one of the greatest jurists of all time Thurgood Marshall whose understated and succinct style would come to transform oral argument William O Douglas called The Lone Ranger because of his impassioned and frequent dissents and John Roberts whom Justice O Connor considers to be the finest practitioner of oral argument she has ever witnessed in Court We get a rare glimpse into the Supreme Court s inner workings how cases are chosen for hearing the personal relationships that exist among the Justices and the customs and traditions both public and private that bind one generation of jurists to the next from the seating arrangements at Court lunches to the fiercely competitive basketball games played in the Court Building s top floor gymnasium the so called highest court in the land Wise candid and assured Out of Order is a rich offering of inspiring stories of one of our country s most important institutions from one of our country s most respected pioneers

Democracy's Discontent and Civic Learning Charles S. White, 2018-09-01 Around the globe democracy is under assault For a dozen years global freedom has followed a downward slope according to Freedom House Once viewed as the world s model of freedom the United States has slipped in world ratings of democracy For a rising portion of the world s population faith in democracy is flagging At the same time a wave of nationalism and xenophobia is rising in the West questioning democracy s ability to meet the needs of its citizens The contributors to this volume examine democracy s discontent from a variety of perspectives What forces have produced the extreme partisanship and polarization roiling America s civic life and politics How has today s populist movement challenged democratic norms and institutions What role has social media played in democracy s discontent and its defense How do we overcome persistent racism in the face of emboldened White supremacist and anti immigrant agitation Across the pages of this book teachers teacher educators and education policy makers will recognize a common theme in responding to democracy s discontent the need to rebuild the nation s civic infrastructure Research on best practices in civic learning and engagement serve as a guide to transforming how we prepare citizens for democratic deliberation and civic action Creative and effective teaching materials and approaches await only the will to invest the needed time and support Repairing our civic infrastructure will help to restore confidence in our civic capabilities and trust in our ability to work together for the public good Without a serious recommitment to the civic mission of schools the nation will be ill prepared to defend against those within and beyond our

Home Department,1877 **Tareekh Pe Justice** Prashant Reddy Thikkavarapu,Chitrakshi Jain,2025-03-20 One of the biggest failures of the Indian state since it gave itself a new Constitution in 1950 has been its inability to deliver fair and timely justice to its citizens Tareekh Pe Justice Reforms for India s District Courts conducts a deep dive into the dysfunction plaguing the district judiciary These courts are the only layer of the judiciary that operate in every district of the country Of the three tiers of the Indian justice system the district courts hear the largest number of cases and are the first point of contact for most Indians seeking justice Traditionally the debate on judicial reforms in India has been framed by the judiciary in terms of resources be it the number of judges or funding for the judiciary In this book the authors attempt to reframe the issue by pointing instead to the institutional factors that have created a chilling atmosphere for the judges of the district judiciary hampering their ability to deliver fearless swift and decisive justice The authors also point to a litany of problems within the higher judiciary upon whom falls the responsibility of administering the district courts This includes a failure to publish accurate judicial statistics an opaque decision making process a poorly conceptualized digitization project that has gobbled up more than Rs 2 000 crore and reckless judicial activism that has often resulted in half baked judicial reforms Lastly the authors propose three big ideas to fundamentally rethink the justice system These ideas include redesigning the constitutional architecture of the Indian judiciary bringing back citizens into the courtrooms via juries and resisting dangerous populist demands that seek the

decimation of procedural and evidentiary safeguards in the law These are reforms that can transform the efficiency of the district courts while also restoring public trust in the Indian judiciary and the rule of law in India **Sandra Day O'Connor:**

There can be no dispute that the judges of the high courts and the Supreme Court of India wield tremendous powers However power comes with a price which bestows huge responsibility Building on this narrative the book advocates that judges must be made accountable not only in respect of their personal conduct and integrity but also in respect of the judicial verdicts they deliver This book thus critically discusses Articles 141 142 and 144 which make the Supreme Court the most powerful institution in the country and Articles 32 and 136 which also confer wide powers on it Using these powers the apex court sometimes unmindful of the budgetary and other vital implications tends to pass orders which lack the scope for implementation The book suggests measures to improve the functioning of Indian judicial system and save the institutions of justice from turning autocratic and narcissistic
