the cultural heritage of virtually every civilization includes one or more vinegars made by the souring action of micro organisms following alcoholic fermentation It has been do mented that the Egyptians Sumerians and Babylonians had experience and tech cal knowledge in making vinegar from barley and any kind of fruit Vinegar was very popular both in ancient Greece and Rome where it was used in food prepa tions and as remedy against a great number of diseases In Asia the first records about vinegar date back to the Zhou Dynasty 1027 221 BC and probably China s ancient rice wines may have originally been derived from fruit for which malted rice was substituted later The historical and geographical success of vinegars is mainly due to the low technology required for their production and to the fact that several kinds of raw materials rich in sugars may easily be processed to give vinegar In addition vi gars are well known and accepted as safe and stable commodities that can be c sumed as beverages health drinks or added to food as preservatives or as flavo ing agents
