Companies ,1914 From Pen to Pixel Patrizia Fortini,Krupali Krusche,2021-01-31 Efforts to build rebuild and maintain the Forum Romanum Rome s historic urban epicenter are likely as old as the place it self some 2800 years As a result the historic significance and archaeological richness of the Forum cannot be overestimated Despite its many changes the Forum Romanum s survival today represents an outstanding example of cultural heritage continuity Its highest possible protection status among monuments conservation agencies in Italy and its early listing on UNESCO s World Heritage List in 1980 are testaments to this Due to its remarkable physical survival the Forum Romanum has been the object of extensive research documentation restoration and preservation efforts over the past two centuries especially The sophistication of these measures evolved to include a wide range of expertise Lay interest among antiquarians and architects in Rome s past from the Renaissance through the eighteenth century was supplanted by the emerging new disciplines of archaeology architectural restoration and museology From the late nineteenth century corresponding advancements in archaeological method and conservation theory and science were increasingly applied From this time on as well expectations for preserving and presenting the Forum Romanum were high the famous site being a matter of intense Roman pride political interest and serving as a must see destination for visitors to Rome Leading historians archaeologists and conservators have been central to the story of the Forum s survival and interpretation While numerous noted antiquarians and historians preceded him the architect and archaeologist Giacomo Boni 1859 1925 was unusual even prescient in his approach and treatment of the place during his tenure as director of excavations of the Forum Romanum from 1898 until 1925 His combined talents as an architect archaeologist and conservator set a standard at the time for careful research thorough documentation and responsible conservation measures The sponsors of the DHARMA conference have wisely chosen to focus on archaeological research and conservation in the Forum during Giacomo Boni s tenure since his work reflects early best practices in researching preserving and interpreting such places To frame the discussion some precedents and influences of the work of Giacomo Boni are offered **Air Distances Manual** ,1998 *The Myth of Middle East Exceptionalism* Mojtaba Mahdavi,2023-02-28 More than a decade after the birth of contemporary social movements in the Middle East and North Africa scholars are asking what these movements have achieved and how we should evaluate their lasting legacies The quiet encroachments of MENA counterrevolutionary forces in the post Arab Spring era have contributed to the revival of an outdated Orientalist discourse of Middle East exceptionalism implying that the region s culture is exceptionally immune to democratic movements values and institutions This volume inspired by critical post colonial decolonial studies and interdisciplinary perspectives of social movement theories gender studies Islamic studies and critical race theory challenges and demystifies the myth of MENA Exceptionalism Composed of three sections the book first places MENA in the larger global context and sheds light on the impact of geopolitics on the current crises showing how a postcolonial critique better explains the crisis of democratic social movements and the resilience of authoritarianism The second section focuses on the

unfinished projects of contemporary MENA social movements and their quest for freedom social justice and human dignity Contributors examine specific cases of post Islamist movements the Arab youth student and other popular non violent movements In the final section the book problematizes the exceptionalist idea of gender passivity and women s exclusion which reduces the reality of gender injustice to some eternal and essentialized Muslim MENA mindset Contributors address this theory by placing gender as an independent category of thought and action demonstrating the quest for gender justice movements in MENA and providing contexts to the cases of gender injustice to challenge simplistic ahistorical and culturalist assumptions
