Mariage Homo La Grande Bataille:

Queer Realms of Memory Siham Bouamer, Denis M Provencher, Ryan K. Schroth, 2025-11-05 Pierre Nora's concept lieux de mémoire realms of memory has become arguably the most significant academic point of reference when discussing processes of nation building and their interconnectedness with history and collective memory Although his theory has acquired popularity well beyond its application to the French context his influential seven volume series 1984-92 is not without its own shortcomings and failures which have only occasionally been exposed over the last two decades It is not until the recent publication of *Postcolonial Realms of Memory* Liverpool University Press 2020 that we see an expansive critique of Nora's own selective memory Our project seeks to continue challenging Nora's approach and France's national narrative by providing space to examine queer lives cultures and memories We contend however that those related to queer experiences within France's collective memory have almost never been addressed *Queer Realms of Memory* is the first book length study to question Nora's lack of engagement with queer French and Francophone cultures and histories
