Informed Watermarking Joachim Eggers, Bernd Girod, 2012-12-06 This book deals with digital watermarking which is defined by the authors of this book as the art of hiding auxiliary information in digital data in a secure robust and imperceptible fashion Digital watermarking as a topic has a long history but before 1995 publications in scientific literature were almost absent From 1995 onwards however the number of publications on watermarking has been steadily increasing Today a number of workshops and conferences on this topic exist also a number of scientific journals on watermarking have been published This renewed scientific interest in digital watermarking has led very quickly to industrial interest as well In 1996 the Copy Protection Technical Working Group a voluntary consortium consisting of the movie industry the IT industry and the consumer electronics industry issued a call for watermarking technologies for the purpose of copy protection of DVD Video A few years later the Secure Digital Music Initiative issued a similar call in this case focusing on copy protection of digital music These two efforts have been only partially successful copy protection based on digital watermarking is not yet implemented on a large scale in any type of consumer device This current failure of watermarking to live up to its expectations finds its cause in a large number of reasons ranging from legal considerations and system aspects to the relative immaturity of watermarking as a technology Proceedings, 2002 **Water Reuse** Chris Binnie, Martin

Kimber, 2008-05-14 Water Reuse An International Survey of current practice issues and needs examines water reuse practices around the world from different perspectives The objective is to show how differently wastewater reuse is conceived and practised around the world as well as to present the varied needs and possibilities for reusing wastewater In the first section water reuse practices around the world are described for regions having common water availability reuse needs and social aspects The second section refers to the stakeholders point of view Each reuse purpose demands different water quality not only to protect health and the environment but also to fulfil the requirements of the specific reuse Reuses considered are agricultural urban agriculture as a special case of the former municipal and industrial Alongside these uses the indirect reuse for human consumption through aquifer recharge is also discussed The third section deals with emerging and controversial topics Ethical and economical dilemmas in the field are presented as a subject not frequently addressed in this field The role of governments in respect of public policy in reuse is discussed as well as the different international criteria and standards for reusing wastewater The importance of public acceptance and the way to properly handle it is also considered The fourth section of the book presents contrasting case studies typical situations in the developed world Japan and Germany are compared to those in developing countries Pakistan and Brazil for agricultural and industrial reuse Indirect planned reuse for human consumption Germany is compared with an unplanned one Mexico The Windhoek Namibia case study is presented to emphasize why if the direct reuse of wastewater for human consumption has been performed with success for more than 35 years it is still the only example of this type around the world To illustrate the difficulties of having

a common framework for regulating water reuse in several countries the Mediterranean situation is described Other case studies presented refer to the reuse situation in Israel Spain Cameroon Nepal and Vietnam these latter countries being located in water rich areas This book will be an invaluable information source for all those concerned with water reuse including water utility managers wastewater policy makers and water resources planners as well as researchers and students in environmental engineering water resources planning and sanitary engineering Scientific and Technical Report No 20

National Security Law, Procedure and Practice Robert Ward,David Blundell,Caroline Stone,Karl Laird,2024-07-19 A comprehensive detailed and updated account of UK national security law in all its aspects National Security Law Procedure and Practice is the only book to collate and explain all the elements of law both substantive and procedural and the practical issues which may arise in national security litigation The specialised nature of the subject makes this book a vital text not only for those seeking an overview of national security law but also for experienced practitioners instructed to act in proceedings in which national security issues may arise The intense media and public scrutiny which accompanies many national security cases makes this book of interest to a wider audience seeking to understand the legal context of such cases This new edition draws on the professional experience of a team of expert contributors and covers all recent legislation case law and guidance It provides a detailed explanation of the National Security Act 2023 which repeals and replaces the existing law relating to state threats The new Act introduces significant new offences and executive powers including the power to impose state threat prevention and investigation measures STPIMs and creates a new scheme for the registration of foreign political influence activities The second edition also includes analysis of the landmark Supreme Court decision in Shamima Begum which re evaluates the respective roles of the government and the courts in national security matters and has ramifications throughout the work a comprehensive explanation of the National Security and Investment Act 2021 a fully revised chapter on sanctions law and an updated explanation of the continued impact of EU law on UK national security law This second edition of National Security Law Procedure and Practice will be an invaluable resource for judges policymakers legislators oversight bodies academic experts and students in a variety of legal fields Facing Global Environmental Change Hans Günter Brauch,Navnita Chadha Behera,Patricia Kameri-Mbote,John Grin,Úrsula Oswald Spring,Béchir Chourou,Czeslaw Mesjasz,Heinz Krummenacher,2009-06-04 The year 2007 could perhaps accurately be described as the year when climate change finally received the attention that this challenge deserves globally Much of the information and knowledge that was created in this field during the year was the result of the findings of the Fourth sessment Report AR4 of the Intergovernmental Panel on Climate Change IPCC which were disseminated on a large scale and reported extensively by the media This was the result not only of a heightened interest on the part of the public on various aspects of climate change but also because the IPCC itself proactively attempted to spread the findings of its AR4 to the public at large The interest generated on the scientific realities of climate change was further enhanced by the award of the Nobel Peace Prize to the

IPCC and former Vice President of the US Al Gore By taking this decision in favour of a leader who has done a great deal to create awareness on climate change and a body that assesses all scientific aspects of climate change and disseminates the result of its findings the Norwegian Nobel Committee has clearly drawn the link between climate change and peace in the world
