One of the following six Superheroes has committed a murder. The suspects were given a maths problem to solve. Only the one telling the truth

Captain America says that for the equation $2x+3=11$, x must equal 3

Nick Fury says that for the equation $7y=35$, that y must equal 5

Howard says equation

Loki says that for the equation

$$\frac{x}{2} + 7 = 12$$

x must equal 2.5

x must equal 16

The

The murder was committed at one of the locations below, but which ones? It happened where TWO of the calculations are correct.

The Bowling Alley

If $6y + 18 = 48$, then y must equal 6
If $5z + 3 = 38$, then z must equal 35

The Cinema

If $x/7 = 3$, then x must equal 21
If $9x + 2 = 82$, then x must equal 9

Mini Mathematical Murder Mysteries Jill Whieldon,2019-01-21 We all like to think we can solve a murder given the right clues Here s another chance to use mathematics skills to identify whodunnit following the great success of the first book in the series Mini Mathematical Murder Mysteries The students are given the data or a diagram to solve a problem which is always which of various characters is a murderer To find out the student must solve all or most of the questions on the sheet to identify wrong answers as well as correct ones Problems are staged so there is an element of suspense for the individual and racing between students to solve the mystery The topics covered in this book are appropriate for ages 12 14 years The

tasks have been used successfully with older pupils too as a reminder of topics covered previously They would also be suitable for younger pupils who have met the appropriate language and content They are likely to take about 40 minutes but this will depend on the ability of the class to coordinate the different aspects of each task The book is aimed at both teachers and parents Teachers This is a set of consolidation resources rather than a teaching tool They have worked well with a variety of classes often putting the students in pairs to enable them to talk about the methods they re using while they solve the murder The author has found that their cooperative skills have improved as has their ability to plan and delegate in a bid to win Parents Much more fun than having endless mathematics exercises to trawl through Children will engage with the mathematics here presented in an entertaining way Ideal for use in revision or other consolidation exercises They are also great fun for after school clubs such as mathematics clubs seeking to run short activities

Children's Literature and Childhood Discourses Anna Cermakova, Michaela Mahlberg, 2024-04-04 Children's literature shapes what children learn about the world. It reflects social values, norms, and stereotypes. This book offers fresh insights into some of the key issues in fiction for children, from the representation of gender to embodied cognition and the translation of children's literature. Connecting classic children's texts such as *Alice in Wonderland* with contemporary fiction, including *Murder Most Unladylike*, the book innovatively brings together perspectives from corpus linguistics, stylistics, cognitive linguistics, literary and cultural studies, and human geography. It explores approaches to experiencing fiction as well as methods for the study of literary texts. Childhood discourses are investigated through the materiality of texts, the spaces that literature takes up in libraries, the cultural history of fiction moulded through performances, as well as reading environments that shape childhood experiences such as fashion and urban spaces. *Children's Literature and Childhood Discourses* emphasizes the crucial link between fictional stories and real life.
