**Facets of Power**, 2023-01-10 The diamond fields of Chiadzwa among the world's largest sources of rough diamonds have been at the centre of struggles for power in Zimbabwe since their discovery in 2006. Against the backdrop of a turbulent political economy, control of Chiadzwa's diamonds was hotly contested. By 2007, a new case of blood diamonds had emerged in which the country's security forces engaged with informal miners and black market dealers in the exploitation of rough diamonds, violently disrupting local communities and looting a key national resource. The formalisation of diamond mining in 2010 introduced new forms of large-scale theft, displacement and rights abuses. *Facets of Power* is the first comprehensive account of the emergence, meaning and profound impact of Chiadzwa's diamonds. Drawing on new fieldwork and published sources, the contributors present a graphic and accessibly written narrative of corruption and greed as well as resistance by those who have suffered at the hands of the mineral's secretive and violent beneficiaries. If the lessons of resistance have been mostly disheartening ones, they also point towards more effective strategies for managing public resources and mounting democratic challenges to elites whose power is sustained by preying on them. *Facets of Power* Richard Saunders, Tinashe Nyamunda, 2016-04-18 The diamond fields of Chiadzwa among the world's largest sources of rough diamonds have been at the centre of struggles for power in Zimbabwe since their discovery in 2006. Mugabe's departure ushered in President Emmerson Mnangagwa's reign. This transition has variously been characterised as marking the inauguration of the Second Republic or New Dispensation or as heralding a new Zimbabwe that is Open for Business. From the moment of the investiture of President Mnangagwa's government, anticipations of seismic changes to the order of doing business by both the incoming government and the larger Zimbabwean society in

general were extremely high There was an expectation that international cooperation with global partners especially in the West would be restored alongside the reinvigoration of a near comatose domestic economy But did this ever happen This volume interrogates the impact of the introduction of the Mnangagwa administration from November 2017 The book seeks to broadly dissect and troubleshoot issues of continuity and change from Mugabes reign into Mnangagwas Second Republic In doing so the book attempts to respond to the grand question To what extent has Mugabeism that was the hallmark of Mugabes reign continued or discontinued into the Second Republic The volume which comes as a sequel to *The end of an era Robert Mugabe and a conflicting legacy* is sure to generate interest and responses from students and academics in the fields of History International Studies Political Science Sociology and Social anthropology as well as from practitioners in the human rights transitional justice conflict resolution security studies and diplomatic fields

**Contemporary Innovation Trends in the Zimbabwean Education System** Stella Muchemwa, Munyaradzi Mawere, 2024-09-23 Innovation is rapidly becoming a driving force in every global sector and education is no exception This book offers a timely and comprehensive analysis of innovation trends within Zimbabwe s education system exploring its impact on students teachers and the wider educational landscape Drawing on extensive research and firsthand accounts the book meticulously evaluates the potential of innovation to drive socio economic growth and enhance lives While acknowledging the benefits of innovation and creativity the authors also raise critical questions about the ethical implications and long term sustainability of these advancements especially within the Zimbabwean context This balanced exploration offers invaluable insights for anyone seeking a deeper understanding of the complexities and possibilities surrounding educational innovation in Zimbabwe

**Governance and Societal Adaptation in Fragile States** John Idriss Lahai, Helen Ware, 2020-06-09 This book examines the various ways in which some fragile states in the Global South or states with limited statehood have adopted and adapted to processes of governance in their quests to address the socialized problems affecting their societies It tells the story of these states resilience in the societal adaptation to a liberalized notion of governance In addition to comparative case studies the book also analyzes the engendered interplay of culture economics and politics in the creation of people centric governance reforms The contributing authors shed light on weak states often constructive engagement in the promotion of state governance under a variety of societal conditions adverse or otherwise and on their ability to remain resilient despite the complexities of the political and economic challenges they face

**STEM Education in Poverty** Brantina Chirinda, Gladys Sunzuma, Perkins Muredzi, 2025-07-15 This book is about Science Technology Engineering and Mathematics STEM education in poverty and the lessons we learn from Zimbabwe The world is driving towards the fourth Industrial Revolution 4IR where economic growth has been attributed to STEM education STEM education is vital in this era where both developed and developing countries are undergo rapid changes Globally STEM education has been practised differently in schools and universities University programs new school curricula instructional methods extracurricular programs and professional development

programs for in service teachers have been created to cater to STEM subjects STEM education is envisioned to produce critical thinkers inventors creators problem solvers innovators and professionals who will solve the world s ever changing challenges including inequity food insecurity climate change inequality and poverty STEM is essential to modern education Zimbabwe has faced significant economic challenges but has made remarkable strides in STEM education By examining the successes and challenges of STEM education in Zimbabwe we can learn valuable lessons about improving STEM education in underserved communities This book contributes to the international debate surrounding the optimal STEM education for students in underserved schools It incorporates detailed accounts of STEM education in Zimbabwe schools shedding light on the challenges students and educators face in impoverished areas In Zimbabwe STEM education faces significant challenges such as materials and facilities pedagogy policy reform access and relevance Some of the main issues highlighted in this book are the need for more resources including funding teaching materials and adequate laboratories Effective STEM pedagogy is hampered by an education system that emphasises the curriculum and teacher centred focus instead of focusing on how students can be taught or learn Research has shown that in Zimbabwe STEM teachers must apply inventive pedagogies and suitable learner centred STEM teaching approaches As a result there is a need for more STEM related programs and courses in schools and universities to improve the opportunities for students to pursue careers in these fields Another challenge is the need for more awareness about the opportunities and importance of STEM education and interest in STEM subjects among students which can be attributed to a lack of exposure and understanding of the relevance and importance of these fields in today s world While lack of resources and other challenges hinder effectiveness opportunity lies in promising pathways of policy and practice In Zimbabwe there is a varying degree of success in the implemented competence based curriculum which emphasises inquiry based learning and STEM education Finally there is a need for early exposure to STEM based career opportunities and for more collaboration between the government private sector and educational institutions to address these challenges and promote STEM education in Zimbabwe This book uses Zimbabwe as an example to explore STEM education in poverty By examining the successes and challenges of STEM education in Zimbabwe this book offers valuable insights into how STEM education can be integrated into the curriculum in countries with developing and emerging economies This book is an essential resource for anyone interested in improving STEM education in underserved communities

**African Perspectives on Poverty, Indigenous Knowledge Systems, and Innovation** Oliver

Mtapuri,2022-11-15 This book examines the connections between poverty and innovation in Africa Through case studies and theorizations from a distinctly African perspective it stands in contrast to current theoretical works in the field which remain very much rooted in Western orientated thinking The book investigates the application of methodologies which explain numerous African contexts in connection with issues of poverty and inequality It reflects on comparative practices and praxes on the African continent including commonplace traditions and practices in alleviating poverty taken against a background of

the failure of current prescriptions for poverty alleviation such as the Structural Adjustment Programmes SAPs and the Poverty Reduction Strategy Papers PRSP There is a dire need for new practical perspectives which move Africa forward using its indigenous knowledge Owing to a general lack of recorded African theories and methodologies on poverty inequality and innovation this book represents a pioneering corpus of African knowledge addressing poverty and inequality through local innovations Adopting a transdisciplinary approach it is relevant to students and scholars in development studies and economics African studies social studies political history and political economy climate studies anthropology and geography
