

MBA Capstone Project Description

Throughout your MBA program, you have worked to develop as a business professional and prepare to meet future challenges as a business leader. Your program culminates in the capstone project, which forms the primary focus of MBA-FPX5910, the final course you will take in the program. The capstone project is intended to provide you the opportunity to demonstrate your MBA program outcomes by:

- Planning and executing the strategic and tactical elements of a comprehensive project.
- Integrating and demonstrating the business leadership skills and techniques you have learned throughout the MBA program.
- Communicating your analysis and recommendations for a real organization both in written form and in a formal presentation.
- Completing your MBA program with an experience that reinforces and integrates what you have learned throughout your MBA program.

The following information outlines the requirements and work associated with the capstone project for MBA-FPX5910.

Capstone Project Examples

You have a wide variety of choice when it comes to choosing a capstone project that is personally interesting and rewarding to you. It is your responsibility to propose a capstone topic and scope that will allow you to demonstrate all of the MBA program outcomes.

Examples of project types that might be proposed to meet these requirements include, but are not limited to:

- A *strategic plan* developed for an organization to use that helps them solve a problem or take advantage of an opportunity.
- A *strategic analysis* conducted on a selected part or area of an organization.
- A *case study* developed on a selected part of or situation within an organization.
- An *intervention* developed to address an organizational issue; for example, a workshop or training activity. The intervention should be broad-based enough to demonstrate the program-level outcomes.
- A *consulting report* developed to analyze a problematic issue within an organization; the issue and analysis should be broad-based enough to demonstrate program-level outcomes.

You may propose other project types for the capstone project so long as you are able to identify how the proposed project satisfies the requirement of demonstrating the program-level outcomes. When choosing your project type and/or topic, keep in mind that it must result in recommendations, next steps, or some other type of actionable, evidence-based takeaways for your intended audience, user, or subject of the project.

Mallon, 2017-10-27 The budget constrained rapidly evolving climate of higher education and academic libraries makes it a necessity for academic librarians and administrators to communicate the value of their library to the university This book explains how to execute this critical task Authored by a library director and director of library liason and instructional services who formerly served as a faculty member a librarian and a professional development instructor *The Pivotal Role of Academic Librarians in Digital Learning* establishes the library s role in supporting student learning in an increasingly digital environment by exploring theoretical foundations and sharing concrete examples The chapters focus on strategies and methods for demonstrating the academic library s value through strategic campus partnerships creation of learning objects such as video tutorials research instruction designed to facilitate student collaboration and participation in assessment of learning on campus All of the topics addressed within a broad range of subject matter fall within the scope of learning in the digital age with particular emphasis on utilizing online learning environments including social media to teach students critical thinking and research skills as well as to position the academic library as an integral part of the modern learning environment This book is a must read for academic librarians in instructional roles teaching faculty academic library

administrators and managers who need to communicate the value of the library in relation to student learning and academic administrators who are obligated to demonstrate the important role of libraries in academic excellence From Purpose to Impact Nicholas O'Regan, 2024-07-24 To meet the challenge of closing the gap between academic research and industry practice we need a step change in how the business school and the business scholar engages with business This book presents best practice in the methods of broadening successful academic business engagement on a major scale It presents concrete recommendations for setting programmes creating incentives and structuring recruitment that will transform effective academic business engagement Most universities claim to have significant links with industry and the professions but in reality only a limited number of business scholars are engaged with industry A focus on impact presents an additional potential trap confusing promotion of research and tactical tips and tricks with genuine engagement This book explores the increasing number of new and innovative partnerships and collaborative activities and looks at how academics can adapt to and leverage these new opportunities It focuses on the academic as the primary driver of the external relationship and outlines the skills and capabilities needed to proactively develop engagement Finally the book provides a number of examples of best practice from a range of countries Written by senior business scholars and leaders from around the world and with examples of best practice included from leading universities this book gives universities the insight needed to develop a broader range of relationships with businesses and to have genuine engagement and impact in practice **Graduate Programs in the Humanities, Arts & Social Sciences 2014 (Grad 2)** Peterson's, 2013-11-22 Peterson's Graduate Programs in the Humanities Arts Social Sciences 2014 contains comprehensive profiles of more than 11 000 graduate programs in disciplines such as applied arts design area cultural studies art art history conflict resolution mediation peace studies criminology forensics language literature psychology counseling religious studies sociology anthropology archaeology and more Up to date data collected through Peterson's Annual Survey of Graduate and Professional Institutions provides valuable information on degree offerings professional accreditation jointly offered degrees part time and evening weekend programs postbaccalaureate distance degrees faculty students requirements expenses financial support faculty research and unit head and application contact information There are helpful links to in depth descriptions about a specific graduate program or department faculty members and their research and more There are also valuable articles on financial assistance the graduate admissions process advice for international and minority students and facts about accreditation with a current list of accrediting agencies *Perceptions of Current Learning Management Systems* Klaus Schütz, 2012-08-08 Scientific Study from the year 2011 in the subject Didactics Business economics Economic Pedagogy grade A Union Graduate College language English abstract iZoca.com is currently a hyper local social networking site It combines elements of social networks and organizational tools In contrast to other social networks like the market dominating Facebook iZoca is not based on relations between individuals but on group affiliations By giving their zip code members become part of their local

community and can access the latest local news and information about events in their local area They can form and join groups in which activities can be planned managed and promoted to the public One of the most important features of iZoca is the integrated personal calendar However the company is struggling with difficulties Membership is growing very slowly Only about 4000 people are currently signed up at iZoca com Revenues generated by ads on the website are scarce For these reasons we propose a strategy shift iZoca should enter the market of Learning Management Systems LMS by partnering with an existing LMS With its key features the group and community structure and the shared calendar it has the potential to satisfy needs of students and colleges that are currently either not or only insufficiently addressed by existing players in the market such as Blackboard or Moodle s Joule The entire college could be mirrored virtually in a community on iZoca Classes could be organized in groups over which students and teachers can interact and communicate about all issues related to the class Teachers could upload the syllabus or assignments students could hand in assignments by uploading Through the integrated calendar group members would always have an up to date overview of the class schedule or due dates for assignments Other things like campus events could also be organized in groups directly on the LMS platform Through a smartphone application students could also access the latest information about classes and campus events directly over their smartphones These examples show that iZoca could clearly offer benefits to college students However before any actions are undertaken into this direction it is important to put any assumptions about customer needs on a fact based fundament To accomplish this a survey has been conducted with college students about their perceptions of their college s current LMS and about their appraisal of the features iZoca could offer The results of this survey are presented in this research paper
