Biennial Boom Paloma Checa-Gismero, 2024-07-05 In *Biennial Boom* Paloma Checa Gismero traces an archeology of contemporary art biennials to uncover the processes that prompted these exhibitions to become the global art world's defining events at the end of the twentieth century. Returning to the early post Cold War years Checa Gismero examines the early iterations of three well known biennials at the borders of North Atlantic liberalism: the Bienal de La Habana, inSITE and Manifesta. She draws on archival and oral history fieldwork in Cuba, Mexico, the US-Mexico borderlands and the Netherlands showing how these biennials reflected a post Cold War optimism for a pacified world by which artistic and knowledge production would help mend social, political and cultural divisions. Checa Gismero argues that in reflecting this optimism biennials facilitated the conversion of subaltern aesthetic genealogies into forms that were legible to a nascent cosmopolitan global elite all under the pretense of cultural exchange. By outlining how early biennials set the basis for what is now recognized as global contemporary art, Checa Gismero intervenes in previous accounts of the contemporary art world in order to better understand how it became the exclusionary rarified institution of today. Competing Memories of Enslavement, Emancipation and Indentureship Sinah Theres Kloß, Andrea Gremels, Ulrike Schmieder, 2026-01-26 *Competing Memories* focuses on the politics of remembering enslavement, emancipation and indentureship in Caribbean contexts. The contributions explore constructions and representations of plural and divergent memories across academic disciplines. As understandings of history and memory may vary, the volume addresses the different and strategic ways these concepts are used within and in relation to the Caribbean. It highlights how historical narratives and cultures of memory are implemented, removed, contested and remodeled in monuments, art, historical archives, literature, film and other kinds of representation all over the Caribbean, its diasporas and in former colonizing countries. With its focus on cultural memory studies, it provides new impulses to slavery and dependency studies. It also contributes to a global debate aimed at gaining a deeper understanding of the complex dynamics of memory formation in the context of colonial violence and trauma. It invites readers to reflect on the power dynamics involved in the processes of remembering, forgetting, memorizing, recollecting and commemorating.
