

A QUICK INTRODUCTION TO MINITAB 16

Useful also for Student Minitab

The Stern School Statistics Group uses Minitab Release 16 for Microsoft Windows as its course software. This program was chosen specifically for use with course B01.1305.

Courses C22.0103, C22.0001, and C22.0003 will use Student Minitab, which is based on release 14. Student Minitab is limited in total spreadsheet size and in the number of worksheets that may be kept within a project file, but these limitations should not present material difficulties in these courses.

Minitab is designed for MS-Windows operating systems, but it will run through emulators on Apple computers. Please check with Stern's Information Technology group if you have difficulties.

When running Minitab, do **Help** \Rightarrow **About Minitab**; this will show you the release number (currently 16.1.0).
