hope and wishful thinking The contents of this handbook it is hoped will partially meet this need In June 1935 the authors prepared a mimeographed edition to meet the local needs of faculty counselors at the University of Minnesota In spite of the fact that this edition was written specifically for faculty counselors in a typical Midwestern university the number of calls for it from guidance workers in other colleges and universities and even in other types of schools quickly exhausted the limited number available In response to this demand the authors have completely revised the mimeographed edition and have broadened its scope to cover guidance techniques in junior and senior high schools as well as at the college level
