Melbourne, Victoria & Tasmania Holly Smith,2010-09-14 The author a native Australian covers everything you might want to know about Australia guaranteed The places to stay from budget to luxury rentals to B Bs the restaurants from fast food to the highest quality the beachwalks and bushwalks the wildlife and how to see it exploring the country by air on water by bike and every other way Following are a few excerpts from the guide The gathering of landscapes within the compact state of Victoria seem as if a giant had taken different pieces from around the continent squashed them together and shaken them up and then tossed them to let them fall where they may The awesome wave lashed coastal edges are among the state s classic sights with crumpled pillars of orange rock stacked tall out in the water Where the shores aren t rough the beaches are silky and white as soft and tame as a kitten with cold but gentle waters Behind this edge are thick patches of temperate

rainforests leading up into drier locales including inland deserts an unmade bed of mountain foothills and folds and smooth river marshes and plains You d never expect that much of the terrain here was once actually volcanic resulting in wild peaks bluffs and valleys throughout the center There s 227 600 sq km of land in the state and the Great Dividing Range arches through the center of it with major collections of peaks in the Dandenongs and Macedons The highest summits are in the east at 1 986 m 6 514 ft Mt Bogong and 1 922 m 6 304 ft Mt Feathertop and snowfields are found throughout the northeastern Australian Alps from June to September Hemming in the land are 1 800 km 1 116 mi of coastlines along the Bass Strait and the Southern Ocean with Melbourne and Geelong fronting the central cut inland to Port Phillip Bay This is a cool state akin to the Pacific Northwest or the lower New England states of the U S with warm summers but chilling wet winters Some regions do dip below freezing namely the northeastern mountains while the Gippsland highlands in the east and the western Otway Ranges see more rain than anywhere else Skip a couple hours south or west and you ll hit the arid Mallee region and the Little Desert and Big Desert national park areas Farmlands fill in the gaps where orchards and vineyards are filled with apples grapes oranges and other citrus fruits Main crops are grains and vegetables the fields fronting huge dairy farms or sheep and cattle ranches Tasmania is offshore from Victoria The name Tasmania is one of the world s most intriguing and it rightfully sounds such as one of the most fascinating places on earth And yes it s a heck of a journey to reach this offshore Australian state but once you re here if you re adventurous you won t want to leave Indeed the island state of Tasmania is ripe for adventure A heart shaped mountainous landmass 298 km 185 mi southeast of the main Australian continent it s covered with forests threaded with rivers and edged by wild rugged beaches and bays Its wilderness comprises an international Heritage Site of its own filled with some of the world s oldest and most unusual plants animals that are found nowhere else on earth rock formations that span every geological era and among the longest underground tunnels ever found The capital of Hobart where almost half the island s residents live is tucked into the southeastern edge and the sleepy northern ferry town of Devonport brings in visitors from the mainland No one ventures far though which leaves the majority of the island open to exploring and free of crowds even at the loveliest of national wonders such as Tasman National Park in the southeast Freycinet National Park in the east and Franklin Gordon Wild Rivers National Park in the west *Perth, Western Australia & the Outback* Holly Smith,2010-09-14 Following is an excerpt from this extensive broad national parks with million year old natural phenomena take their places in patchwork fashion around them and thousands of kilometers of desolate unexplored lands fill the gaps in between You could wander here for a year and not run into a soul if you were well prepared or you could skirt between desert ocean and river excursions There s plenty of history and culture surrounding every settlement too providing for a well rounded adventure experience that delves deep into a very unique blend of environments With more than 63 national parks bushwalking is the number one activity followed closely by four wheel drive adventures The entire state is edged by the ocean with magnificent reefs around the center so diving and snorkeling boating

windsurfing and other watersports are all possibilities Historic cultural excursions take place in the center and the far north Aboriginal lands while modern encounters might have you wine tasting through the southwest Margaret River vineyards You can cycle around the coast rock climb and abseil in the rugged mountains explore caves in the central region camel trek in the desert kayak the southern rivers dive and snorkel along remote reefs and surf chic Perth swells or lonely Pacific bays The possibilities are as endless as the land for the state is only just being chiseled into a major adventure destination and it's a place where you truly have the chance to trail blaze get lost and discover something entirely new about the world and your own character within it
