Proceedings of the 4th International Conference on Communication, Language, Education and Social Sciences (CLESS 2023) Muhamad Izzuddin Zainudin, Hawa Rahmat, 2024-01-25 This is an open access book The 4th International Conference on Communication Language Education and Social Sciences CLESS 2023 will be held on 26-28 July 2023 This year's conference will be a part of the bigger Digital Future Congress DIFCON comprising of various other conferences in different fields and will be held online CLESS 2023 is unique in which it combines communication language education and social science in an international academic conference The aim of CLESS 2023 is to offer a platform for both local and international academics educators researchers and other professionals to meet share and discuss latest research trends ideas and innovation in the field of communication language education psychology and social sciences The conference is aimed to provide a platform for young researchers as well as to support and encourage other researchers to present their research to network within the international community of researchers and to share and seek the insight and advice of successful senior researchers all over the world during the conference *Ethics in Business Decisions and Competitive Advantage* John E. Triantis, 2024-12-30 Business ethics is the set of practices and policies that companies use to guide them through decisions about finances negotiations and deals corporate social responsibility and more Without a strong set of ethics a business can run afoul of the law and encounter financial pitfalls and moral dilemmas The objective of this book is a practical fair balanced and objective treatment of the role of ethics in the business performance of companies in competitive markets that demonstrates how ethics affects business culture strategy decision making and value creation which then determine competitiveness and business viability The universality of corruption and the prevalence of unethical conduct is the background from which the narrative describes how ethical issues enter all functional areas The ethics effects on the complexity of decisions and challenges are examined and the questions of why bother with ethical business and whether

businesses invite government regulation are answered Next a framework is developed to identify and trace links and influences of business ethics on strategic decisions corporate culture and decision making The effects of strategy and culture on key business success factors and their interdependence are reviewed along with those with competitive advantage elements These assessments then form the basis of characterizing competitive advantage in the framework developed Decision making and strategy links with competitive advantage elements and the inter competitive advantage element interactions are evaluated along with competitive advantage organizational effects The uniqueness of this book is the creation of a method to identify and assess how ethics impacts business decisions and competitive advantage based on accepted economic tenants It lays the plan for quantitative assessments of the impact of ethical behavior and it is written from the perspective of a business economist Other books deal with business ethics elements only none explains how ethics effects permeate business sustainability The main contribution of this book is demonstrating that ethics is a necessary factor for business sustainability It provides insights to regulators at all government levels counterbalances ethicist claims about business ethics and points out how ethical business conduct affects the economy

Reviews of National Policies for

Education: South Africa 2008 OECD,2008-09-05 Gives a brief overview of regional issues and the history of education in South Africa and describes the development of education in the country over the past 15 years It presents an analysis of the education system identifying key directions for *The A to Z of Careers in South Africa* ,2006

Systematic Approaches to Mental Health Care and Promotion Bach Tran,Roger C. Ho,Brian James Hall,2020-06-05 Globally mental health problems remain as one of the largest contributors to the population burden of diseases According to WHO common mental disorders including depression and anxiety affect the health of about 9% of the world s population and account for over 10% of the total years lived with disability In many parts of the world the number of people with mental health disorders has been increasing fueled by a rapid population growth and aging as well as urbanization and immigration It is estimated that 80% of these non fatal diseases occurred in low and middle income countries However in such settings coverage of both preventive and curative services is still very limited Diversity in socio cultural backgrounds and limited capacity of local health care systems are emphasizing the importance of systematic approaches to understanding and intervening in the issue Although the social economic and health burden of mental health issues are substantial effectiveness of policies and interventions is varied across regions and largely driven by contextual factors Evidence based prevention and treatment approaches involve the synthesis of epidemiological surveys assessment of clinical populations e g chronic medical diseases chronic psychiatric illnesses and studies exploring the role of biological markers in psychiatric illnesses This Research Topic aims to introduce the latest research findings on the application of system thinking in Mental Health Care and Promotion *Community Series in Mental Illness, Culture, and Society: Dealing with the COVID-19 Pandemic, volume VIII* Mohammadreza Shalbafan,Samer El Hayek ,Renato de Filippis,2024-06-21 The COVID 19 outbreak has impacted many areas of our lives

including mental health Lockdown and physical distancing measures have been one major effective intervention to counter the spread of the virus and reduce the impact of the disease However they have negatively impacted mental well being and behaviors either triggering the onset of new psychiatric symptoms and diseases or amplifying pre existing ones The pandemic and lockdown measures have also been associated with reduced access to treatment and facilities all over the world further worsening mental health outcomes The impact on mental health although universal varied between nations Cultural and societal variables including norms values religion and stigma have played an important role in shaping COVID 19 related mental health symptoms including anxiety depression grief psychosis and addiction These sociocultural factors have also molded how mental health interventions are tailored and provided Highlighting the intertwining relationship between the pandemic mental health and sociocultural factors are essential to managing emerging mental health symptoms adequately

Problems in Continuing Education Jerold W. Apps,1979 The book begins with an analysis of the problems related to characteristics of the human species then moves on to discuss problems related to the characteristics of adults as learners problems related to the context of continuing education problems related to program planning to teaching and learning and to research in continuing education The author challenges many accepted beliefs about the definition purpose and planning of continuing education while presenting alternative views about each problem discussed A special section on how to analyze problems helps stimulate the reader s own analysis of the problems and issues raised *Pakistan Journal of Psychology* ,2005 *Life and environment* ,2003
