Millennial Culture and Communication Pedagogies Andrew Sutherland, Michael G. Strawser, 2018-11-15 This book examines the ways in which faculty and staff at the higher education level teach and communicate with their millennial students and colleagues. The contributors address how millennials' academic and non-academic interests and everyday performances within and outside of higher education influence how faculty and staff communicate with them. This book delves into how millennials can become more adaptable in their communication with others in society, especially in higher education, be it from different generations or cultures that may or may not communicate the way they do.
