**New Serial Titles** ,1998 A union list of serials commencing publication after Dec 31 1949 **Motor Cycling and Motoring** ,1913 **Fords of the Sixties** Michael Parris, 2004-07-01 Continuing his classic series on the Ford Motor Company Michael Parris gives us the inside stories of Ford during the Total Performance sixties This decade brought us the Falcon the Mustang Shelby Cobras and motorsports wins from Indy and NASCAR to Trans Am and Le Mans Nothing was beyond the grasp of Henry Ford II and his great company Style and auto racing were playing an important role in Ford s growth Henry still called the shots Iacocca brought on the Mustang and Carroll Shelby gave Ford the international respect in racing it sought Henry wanted to buy but

Ferrari wasn't selling. So he turned Shelby loose with his Cobras and then the GT40s. Le Mans belonged to Ford. And in NASCAR drivers including Fireball Roberts, Fred Lorenzen and Curtis Turner were lighting the southern speedways on fire. Ford during the sixties was about more than just auto racing. The company had stylish, hot-selling models like Falcon and Mustang. Profits were big and money was being spent on beautiful body designs, high performance engines and new muscle cars. When the horsepower challenge came from GM, Ford was ready. Fairlane and Mustang GT models came charging off the assembly line by the thousands and they all had thunder under their hoods. Engines ranging from the semi Hemi 429 and high rise 427 to the Boss 302 were facing off with GTOs on every street in America. Fords of the Sixties is full of beautiful photography and inside stories from the men who brought Ford its design and performance success throughout the decade. Stories never heard before are drawn from first hand interviews and in depth research from the archives of Ford Motor Company. If you want the inside story of Ford, this all color classic is a must for your library. **American Cars, 1973-1980** J. "Kelly" Flory, Jr., 2012-11-14. The 1973 oil crisis forced the American automotive industry into a period of dramatic change marked by stiff foreign competition, tougher product regulations and suddenly altered consumer demand. With gas prices soaring and the economy in a veritable tailspin, muscle cars and the massive need for speed engines of the late 60s were out and fuel efficient compacts were in. By 1980 American manufacturers were churning out some of the most feature laden yet smallest and most fuel efficient cars they had ever built. This exhaustive reference work details every model from each of the major American manufacturers from model years 1973 through 1980 including various captive imports e.g. Dodge's Colt built by Mitsubishi. Within each model year it reports on each manufacturer's significant news and details every model offered its specifications, powertrain offerings, prices, standard features, major options and production figures among other facts. The work is heavily illustrated with approximately 1,300 photographs. [The Encyclopedia of Classic Cars](#) Kevin Brazendale, 1999. This reference features the best models from the greatest manufacturing companies of the world both past and present. Alphabetized entries include a short history of each manufacturer. Specific models of 600 plus cars are examined in detail and illustrated by color and bandw photos highlighting their unique qualities. The story of each classic car is complemented by performance tables that include information such as maximum speed and power, engine type and details of transmission, chassis, suspension and brakes.
