SETTLEMENT GEOGRAPHY

2.1 How site and situation affect the location of rural settlements

PHYSICAL FACTORS:

- ✓ Early settlements develop around a subsistence farming
- ✓ Choice of site is linked to physical aspects of site

1. Availability of fresh water supply

2. Farming factors

Fertile and arable land or land that provides good grazing for livestock.
Land that are flat or gentle are also preferred.

3. Availability of building material and energy resources

Stone, clay, mud, grass and wood were used to build houses. Burning of wood was used as a source for heating and cooking.

4. Positive effects of microclimate

Southern hemisphere – settle on north-facing slopes: direct sunshine, heat and light.

Hilly areas – settlements on warmer inversion layer

Not settlements in hill tops or valley floors: low temperature specially at night.

ECONOMIC FACTORS

- ✓ Fertile, well-drained soil and grazing land attracts commercial farming settlements.
- ✓ Natural harbour, close to productive fishing grounds leads to the development of settlements.

Memorandum Of Geography 2013:

Moscow under Construction Robert Argenbright, 2016-07-26 Moscow under Construction explores the growth of place based opposition to destructive redevelopment practices in Moscow and the consequent changes in city's governance regime. The groups of citizens discussed in this study have struggled to defend homes, neighborhoods, heritage buildings and historic districts and in the process they've built up civil society and advanced democratization. Heritage preservationists and other aggrieved Muscovites have organized themselves into initiative groups and social associations to protect specific places in the city and to influence the planning process and these place defenders have become more confident and capable as citizens. Their activities also have caused Moscow's city government to shift along the political spectrum away from highly authoritarian and opaque habits of ruling toward a more open and collaborative governance regime. **Safety and Human**
