Presidential Elections in Nigeria's Fourth Republic

Babayo Sule, Usman Sambo, 2024-03-07 This book provides a uniquely detailed analysis of presidential elections in Nigeria's Fourth Republic. The authors explore the changing dynamics of voting patterns, religious politics, politicians' behaviour, and the broader political system to offer new insights into presidential systems in Africa and beyond. In doing so, they address an often neglected area of political science and cast light on the political challenges facing one of the world's largest democracies. The book's comprehensive coverage of Nigerian presidential elections and the lessons they hold for developing countries across the globe is a valuable resource for researchers, students, international institutions, and non-governmental organisations.

Development Perspectives from the South Mawere, Munyaradzi, 2016-12-14 Not so long ago The Economist described Africa as a hopeless continent. This damning description specifically referred to the development status of Africa. While the debate on the political and socio-economic underdevelopment of Africa had been raging on prior to the Economist's daring but controversial pronouncements, it intensified from thereon. Many concerned people from within the continent and elsewhere have reproved the proclamation, but mainly in newspapers and the broadcast media. Not enough has been done by development scholars to critically reflect on the description and status of Africa's development condition in a nuanced and systematic fashion. Yet it is through incisive reflections and systematic engagements with Africa's situations and circumstances that directions and solutions to the African development predicament could be forged. The present volume is an attempt to open up a constructive dialogue between the Global North and the Global South on the African underdevelopment conundrum. The book is an eye opener to African governments, social scientists, policy makers, and development scholars concerned with the urgent need to rethink, reimagine, and retheorise Africa's development gridlock.

The Palgrave Handbook of Language and Crisis Communication in Sub-Saharan Africa Ernest Jakaza, Hugh

Mangeya, Isaac Mhute, 2024-06-17 This handbook provides a detailed and sustained examination of the scope, purpose, and practical application of crisis and disaster management communication in this critical region of the African continent, sub-Saharan Africa (SSA). The volume lays the foundation that enables a nuanced appreciation of two significant issues. The first pertains to SSA's vulnerability to both natural and man-made phenomena. Secondly, it argues that communication plays a critical role in so far as the identification, social construction, raising awareness, preparation, mitigation, and eradication of crises and disasters in the region. Communication plays a critical role in potentially reducing the impacts of crises and disasters before their occurrence. This handbook is a key resource for academics, students, and practitioners in areas such as political communication, media communication, language and communication, brand communication, social/digital media communication, and crisis communication, among others.
