Mitsubishi Lancer Evolution 4 And 5 Workshop Manual:

Runways & Racers Terry O'Neil, 2011 Runways and Racers focuses on sports car races held at military installations throughout America in the early 1950s. It was a marriage of convenience for the Sports Car Club of America and the Strategic Air Command with both parties gaining advantages from the arrangement. The thorn in the side turned out to be a Congressman whose own aspirations exceeded his standing but who found himself in a position to be able to influence the outcome of events.

Subaru Impreza Brian Long, 2006 Perceived as a replacement for the long running Leone, the Impreza quickly gained a great reputation through Subaru's successful WRC program. This book covers the full story of the Impreza from concept through to the current production car, looking at the rally machines along the way and illustrated throughout with contemporary material. Now with over 400 mainly color pictures and significant additional text, this is a fantastic work and an account of an amazing car.

The Book of the Ferrari 288 GTO Joe Sackey, Nicola Materazzi, 2013 This book covers the background, conception, design, production, and aftermath of the iconic Ferrari 288 GTO, including the prototypes, the early production cars, the mainstream production cars in their various specification guises, and the Evolution cars planned for the aborted Group B FIA race series. A comprehensive and beautifully illustrated look at a unique sports car.

Northeast American Sports Car Races 1950-1959 Terry O'Neil, 2010 This book focuses on the different aspects that contributed to the development of Northeast American sports car racing during the 1950s. The evolution from amateur drivers racing on public roads in 1950 to both professional and amateur drivers racing at private purpose-built tracks in 1959 demanded huge leaps of faith, trust, and understanding. The transition was neither easy nor uneventful for drivers, clubs, or track owners, and the tragedy of politics and in.

Autocar, 2004

Amédée Gordini Roy P. Smith, 2022 This is the story of a man, a team, and their life and times, as well as a complete record of all their achievements and failures. It logs the financial and personal cost of racing in the prewar and postwar periods. It tells of how the mighty car company Renault became involved with them in the late 1950s and how Amédée Gordini became known throughout the world as one of the greatest engine tuners of his time.

Vincent Motorcycles Philippe Guyony, Very few motorcycles have carved a mark in history like the Vincent V-twin from its arrival in 1946 and up to the present day. On the road, in club racing, in drag races, or competing for land speed records, it dominated the motorcycle world, leading to the famous catchphrase coined by the factory: The World's Fastest Standard Motorcycle. It was a FACT, NOT a slogan. Images such as that of Rollie Free in swimming trunks, laying flat on his works-modified Black Shadow, and taking the American motorcycle land speed record at Bonneville in 1948, have now passed into posterity. In fact, the big Vincent was so ahead of its time that it continued to compete successfully almost arrogantly in

racing until the mid 1970s against modern bikes No other motorcycle in the world can claim this kind of achievement
 Following the premature ending of Vincent production Fritz Egli s 1967 Egli Vincent was the first chassis completely
 redesigned for a Vincent in 21 years Egli s machine inspired numerous builders for several generations and this book traces
 holistically the story of all those motorcycles in the broad context of the classic and modern history of the Vincent
