Universities and the Occult Rituals of the Corporate World Felicity Wood, 2018-04-17 Universities and the Occult Rituals of the Corporate World explores the metaphorical parallels between corporatised market oriented universities and aspects of the occult In the process the book shows that the forms of mystery mythmaking and ritual now common in restructured institutions of higher education stem from their new power structures and procedures and the economic and sociopolitical factors that have generated them Wood argues that universities have acquired occult aspects as the beliefs and practices underpinning present day market driven academic discourse and practice weave spells of corporate potency invoking the bewildering magic of the market and the arcane mysteries of capitalism thriving on equivocation and evasion Making particular reference to South African universities the book demonstrates the ways in which apparently rational features of contemporary Western and westernised societies have acquired occult aspects It also includes discussion of higher education institutions in other countries where neoliberal economic agendas are influential such as the UK the USA the Eurozone states and Australia Providing a unique and thought provoking look at the impact of the marketisation of Higher Education this book will be essential reading for academics researchers and postgraduate students engaged in the study of higher education educational policy and neoliberalism It should also be of great interest to academics in the fields of anthropology folklore and cultural studies as well as business economics and management

Auer,Thrasyvoulos Tsiatsos,2018-02-13 Interactive mobile technologies have now become the core of many if not all fields of society Not only do the younger generation of students expect a mobile working and learning environment but also the new ideas technologies and solutions introduced on a nearly daily basis also boost this trend Discussing and assessing key trends in the mobile field were the primary aims of the 11th International Conference on Interactive Mobile Communication Technologies and Learning IMCL2017 which was held in Thessaloniki from 30 November to 01 December 2017 Since being founded in 2006 the conference has been devoted to new approaches in interactive mobile technologies with a focus on learning The IMCL conferences have in the meanwhile become a central forum of the exchange of new research results and relevant trends as well as best practices This book contains papers in the fields of Future Trends and Emerging Mobile Technologies Design and Development of Mobile Learning Apps and Content Mobile Games Gamification and Mobile Learning Adaptive Mobile Environments Augmented Reality and Immersive Applications Tangible Embedded and Embodied Interaction Interactive Collaborative and Blended Learning Digital Technology in Sports Mobile Health Care and Training Multimedia Learning in Music Education 5G Network Infrastructure Case Studies Real World Experiences The content will appeal to a broad readership including policymakers academics educators researchers in pedagogy and learning theory school teachers the learning industry further education lecturers etc **National Child-focused Policy Research Agenda 2016-2020** ,2016 Investor and Stakeholder Perception Survey, 2014-2015 ,2015 **The Paris Framework for Climate Change Capacity Building** Mizan R Khan,J. Timmons Roberts,Saleemul Huq,Victoria Hoffmeister,2018-04-09 The Paris Framework for Climate Change Capacity Building pioneers a new era of climate change governance performing the foundational job of clarifying what is meant by the often ad hoc one off uncoordinated ineffective and unsustainable practices of the past decade described as capacity building to address climate change As an alternative this book presents a framework on how to build effective and sustainable capacity systems to meaningfully tackle this long term problem Such a reframing of capacity building itself requires means of implementation The authors combine their decades long experiences in climate negotiations developing climate solutions climate activism and peer reviewed research to chart a realistic roadmap for the implementation of this alternative framework for capacity building As a result this book convincingly makes the case that universities as the highest and sustainable seats of learning and research in the developing countries should be the central hub of capacity building there This will be a valuable resource for students researchers and policy makers in the areas of climate change and environmental studies Investing in Reproductive, Maternal, Newborn, Child, and Adolescent Health in Uganda Elizabeth Asege Ekochu,Julia Mensah,Rogers Ayiko,Stephen Kisembe Kiirya,Brendan Michael Hayes,Collins Chansa,Richard Crabbe,Grace Murindwa,Marc DeFrancis,2024-03-22 In Uganda conditions in reproductive maternal newborn child and adolescent health RMNCAH remain the primary drivers of morbidity and mortality accounting for 60 percent of years of life lost The high burden of these

conditions can be attributed to a poor quality of care resulting from inadequate financial human and material resources compounded by weak multisectoral coordination. Moreover, the country's high population growth rate and a young population imply that RMNCAH service delivery will continue to dominate health sector reforms even with the increasing prevalence of noncommunicable and infectious diseases. Over the past two decades, Uganda has focused on improving the quality of RMNCAH service delivery, leading to declines in the maternal, infant, and under-five mortality ratios and the increased use of modern contraception among married women. However, the neonatal mortality and teenage pregnancy rates have stagnated, and the low civil registration of births and deaths remains challenging. Investing in Reproductive, Maternal, Newborn, Child, and Adolescent Health in Uganda: What Have We Learned and Where Do We Go from Here comprises 12 studies conducted as part of the RMNCAH Operational Research Program, drafted between 2019 and 2021 and finalized and disseminated in October 2022 across 45 districts of Uganda, with funding from Sweden and the World Bank. These studies underscore important lessons learned and offer suggestions for enhancing the delivery of RMNCAH interventions. Each chapter represents one study and discusses service delivery, the health workforce, financing, health information systems, and governance and leadership. Two appendixes summarize key findings and recommendations and explain the roles of key stakeholders in the RMNCAH Operational Research Program.
