SPECIAL INSTRUCTIONS					
Perform large floor and factory cleaning every two weeks. If it needs, especially the outside equipment.					
Reschedule cleaning. Coordinate with the factory supervisor to minimize cleaning impact on production activities.					
Perform monthly steel cleaning and remove rust from steel. Coordinate with the maintenance team for a safe machine and steel removal.					
Security measures: always use safety protocols, especially when cleaning potentially active equipment. Always follow emergency response and evacuation instructions.					
After cleaning, always check and ensure equipment is working properly, grease traps and electrical systems are working.					
Communication: Inform your supervisor with the status of work for each session or changes in the cleaning schedule.					
Emergency Response: Familiarize yourself with emergency exits and procedures. Report any safety issues immediately.

Knowledge-Based Intelligent Information and Engineering Systems Mircea Gh. Negoita,2004-10-14 We were very pleased to once again extend to the delegates and we are pleased to say our friends the warmest of welcomes to the 8 International Conference on Knowledge Based Intelligent Information and Engineering Systems at Wellington Institute of Technology in Wellington New Zealand The KES conferences attract a wide range of interest The broad focus of the conference series is the theory and applications of computational intelligence and emergent technologies Once purely a research field intelligent systems have advanced to the point where their abilities have been incorporated into many conventional application areas The quest to encapsulate human knowledge and capabilities in domains such as reasoning problem solving sensory analysis and other complex areas has been avidly pursued This is because it has been demonstrated that these abilities have definite practical applications The techniques long ago reached the point where they are being exploited to provide

commercial advantages for companies and real beneficial effects on profits KES 2004 provided a valuable mechanism for delegates to obtain a profound view of the latest intelligent systems research into a range of algorithms tools and techniques KES 2004 also gave delegates the chance to come into contact with those applying intelligent systems in diverse commercial areas The combination of theory and practice represents a uniquely valuable opportunity for appreciating the full spectrum of intelligent systems activity and the state of the art
