Enhancing Entrepreneurial Mindsets Through STEM Education Sila Kaya-Capocci, Erin Peters-Burton, 2023-01-01 Entrepreneurship is defined in different fields with definitions ranging from a specific perspective such as starting a business to a broader perspective such as a process of establishing new social economic environmental institutional cultural and or scientific environments There has been some movement toward entrepreneurship in STEM education through hackathons and makerspaces but they tend to be limited to informal settings In higher education there seems to be a border line between business schools and education departments This book aims to remove the borders between the Business Schools and the Department of Education and help Business Schools to develop their educational practices further and help Education Departments to develop their knowledge of entrepreneurship from its

formal discipline The purpose of this book is to bring together experts from STEM education and the formal discipline of entrepreneurship to explore the role of STEM in everyday life through an entrepreneurial lens and show how this integration can broaden STEM education practices *Evidence, Politics, and Education Policy* Lorraine M. McDonnell, M. Stephen Weatherford, 2021-02-01 In *Evidence Politics and Education Policy* political scientists Lorraine M McDonnell and M Stephen Weatherford provide an original analysis of evidence use in education policymaking to help scholars and advocates shape policy more effectively The book shows how multiple types of evidence are combined as elected officials and their staffs work with researchers advocates policy entrepreneurs and intermediary organizations to develop create and implement education policies *Evidence Politics and Education Policy* offers an in depth understanding of the political environment in which evidence is solicited and used Two key case studies inform the book s findings The primary case a major multimethod study examines the development and early implementation of the Common Core State Standards at the national level and in four states California Indiana Massachusetts and Tennessee A comparative case analyzes the evidence used in Congressional hearings over the twenty year history of the Children s Health Insurance Program Together the two cases illustrate the conditions under which different types of evidence are used and in particular how federalism the complexity of the policy problem and the policy s maturity shape evidence use McDonnell and Weatherford focus on three leverage points for strengthening the use of research evidence in education policy integrating research findings with value based policy ideas designing policies with incentives for research use built into their rules and organizational structures and training policy analysts to promote the use of research in policymaking venues **The Myth of America's Decline** Josef Joffe, 2013-10-29 A bracing and intelligent reminder that for all its woes America remains extraordinarily dynamic innovative and resilient Fareed Zakaria Hailed by the Wall Street Journal as one of the best books of 2013 *The Myth of America's Decline* is a highly provocative look at how the United States for all its failings continues to be the leading business political and intellectual model for all other nations In a world where America bashers constantly chortle that the United States is in decline Josef Joffe using lively historical examples and empirical economic models demonstrates that these doomsday contentions are flawed and that America even when compared with a resurgent China is the land where the future is being born
