экранизации. Преврати свой роман в сценарий Пол Томлинсон, 2025-09-04 PDF A4 **The 15-Minute Movie Method** Wallace Evan Wang, 2013-11 If you've always wanted to write a screenplay or a novel you may be wondering What makes a great story It's not just interesting characters memorable dialogue or explosive action scenes What makes a great screenplay or novel is a great story Every great story from classic novels and stage plays to today's modern films follow the same basic proven story structure that alternates between contrasting problems and solutions to maintain and maximize suspense In the traditional three Act structure a story looks like this Act I Exposition Act II Rising Action Act III Climax Act I and Act III are roughly the same length corresponding to a 30 minute length in a 120 minute screenplay but Act II is typically twice as long as either Act I or Act III The result is that the traditional three Act structure sets you up for failure by forcing you to write a huge chunk of your story without any guidelines whatsoever In contrast a four Act structure makes each Act manageable while also providing the necessary contrast to create a compelling story Stories are interesting and suspenseful because they alternate between problems facing the hero followed by solutions that the hero achieves In the four Act structure a story looks like this Act I Exposition Act IIa Positive Rising Action Act IIb Negative Rising Action Act III Climax Another way to look at this four part story structure is as follows Act I Problem facing the hero Act IIa Hero solves the problem and appears to achieve success Act IIb New problems occur Act III Hero finally solves the problem Let's look at how this four part story structure works in Star Wars Act I Problem Luke is stuck in a dead end life on his uncle's farm Act IIa Solution Luke leaves with Obi-wan to deliver the stolen Death Star plans Act IIb Problem Luke gets trapped on the Death Star Act III Solution

Luke blows up the Death Star The four Act structure clearly lets you tell a story with alternating problems and solutions which is how you generate suspense to keep an audience glued to the edge of their seats Notice that with Act IIa the action continues to rise but in a positive direction Yet in Act IIb the action also continues to rise but in a negative direction This subtle difference is what the typical three Act structure fails to identify which is why the three Act structure so easily misleads writers to create less than compelling stories Once you understand how this four part story structure works you can use it as a guide to help shape your story into a well crafted screenplay The 15 Minute Movie Method isn't a formula for writing a story but a set of guidelines that you can test for yourself with your own favorite movies By following The 15 Minute Movie Method guidelines you can learn how to structure your screenplay to tell a compelling intriguing story with any idea You'll learn the four basic parts of any story how to divide your screenplay into eight 15 minute segments that each tell a mini story what type of information each story segment needs to show the audience how the beginning and end of your story is related how to create the toughest villain for your particular hero who the most important character of your story really is Hint it's not your hero and much more with specific exercises that anyone can follow whether you're a novice trying to write a first screenplay or a veteran screenwriter who needs to fix a problem with an existing screenplay By taking you step by step through the process of turning a good idea into a well structured story The 15 Minute Movie Method can show you how to write a screenplay with less hassle frustration and confusion so you can spend more time actually writing and enjoying the process of creating the story that you want to share with the world

develop plot portray characters write realistic dialogue handle writer's block and submit a manuscript Writing Movies for Fun and Profit Thomas Lennon, Robert Ben Garant, 2011-07-05 This is the only screenwriting guide by two guys who have actually done it instead of some schmuck who just gives lectures about screenwriting at the airport Marriott. These guys are proof that with no training and little education ANYONE can make it as a screenwriter. Paul Rudd, Robert Ben Garant and Thomas Lennon's movies have made over a billion dollars at the box office and now they show you how to do it yourself. This book is full of secret insider information about how to conquer the Hollywood studio system, how to write pitch structure and get drunk with the best of them. Well, maybe not the best of them but certainly the most successful. If you're aiming to win an Oscar, this is not the book for you. But if you can type a little and can read and speak English, then you too can start turning your words into stacks of money. This is the only screenwriting book you will ever need because all other ones pretty much suck. In these pages, Garant and Lennon provide the kind of priceless tips you won't find anywhere else, including: The art of pitching, Getting your foot in the door, Taking notes from movie stars, How to get fired and rehired, How to get credit and royalties. And most important, what to buy with the huge piles of money you're going to make. Writing Movies for Fun and Profit will take you through the highs and lows of life as a professional screenwriter. From the highs of hugging Gisele Bündchen and getting kung fu punched by Jackie Chan to the soul-crushing lows of Herbie Fully Loaded. Read this book and you'll have everything you need to make your first billion the old-fashioned way by selling out in show business. A portion of the authors' proceeds from this book are being contributed to the USO of Metropolitan Washington, a private nonprofit organization dedicated to serving active-duty military members and their families in the greater Washington DC region.

The Nutshell Technique Jill Chamberlain, 2016-03-01 Veteran script consultant Jill Chamberlain discovered in her work that an astounding 99 percent of first-time screenwriters don't know how to tell a story. These writers may know how to format a script, write snappy dialogue and set a scene. They may have interesting characters and perhaps some clever plot devices. But invariably, while they may have the kernel of a good idea for a screenplay, they fail to tell a story. What the 99 percent do instead is present a situation. In order to explain the difference, Chamberlain created the Nutshell Technique, a method whereby writers identify eight dynamic interconnected elements that are required to successfully tell a story. Now for the first time, Chamberlain presents her unique method in book form with The Nutshell Technique: Crack the Secret of Successful Screenwriting. Using easy-to-follow diagrams, nutshells, she thoroughly explains how the Nutshell Technique can make or break a film script. Chamberlain takes readers step-by-step through thirty classic and contemporary movies showing

how such dissimilar screenplays as *Casablanca* *Chinatown* *Pulp Fiction* *The Usual Suspects* *Little Miss Sunshine* *Juno* *Silver Linings Playbook* and *Argo* all have the same system working behind the scenes and she teaches readers exactly how to apply these principles to their own screenwriting Learn the Nutshell Technique and you ll discover how to turn a mere situation into a truly compelling screenplay story
