contribution The volume begins with a substantial introduction dealing with memory uses of the past and the new history of England in the late sixteenth and early seventeenth centuries Fuller was moved by the changes in Church and state that came during the civil wars that led to the trial and execution of King Charles I and to the Interregnum that followed He sought to revive the memory of the English past recalling the successes and failures of both distant and recent events The book illuminates Fuller s focus on history as a means of understanding the present as well as the past and on religion and its important place in English culture and society
