The Oxford Handbook of Kenyan Politics Nic Cheeseman, Karuti Kanyinga, Gabrielle Lynch, 2020 The Oxford Handbook of Kenyan Politics provides a comprehensive and comparative overview of the Kenyan political system as well as an insightful account of Kenyan history from 1930 to the present day Country profile - Kenya: Gender, climate change, and nutrition linkages Mawia, Harriet, Ferguson, Nathaniel, Bryan, Elizabeth, Thomas, Timothy S., 2025-07-22 Agriculture is vital to Kenya's economy accounting for 20% of the country's GDP in 2020. Yet the growth of the sector has slowed in recent years due to unfavorable weather conditions leading to a reduction in crop and livestock performance Central Bank of Kenya 2023. While employment in agriculture has been steadily declining to 32% in 2023, the sector still employs a large share of the rural population and is the main source of informal employment, rural income, and livelihoods D'Alessandro et al 2015 ILO 2025. A majority of Kenyan farmers operate on a small scale and are solely dependent on rainfall D'Alessandro et al 2015. However, since the 1970s, the country has experienced significant changes in rainfall patterns: average rainfall during the long season has decreased while rainfall during other times of the year has increased, and the country has experienced more frequent climate extreme events Kogo et al 2021. Increased climate variability has negative effects on agriculture and may exacerbate inequalities within the sector. Due to gender inequalities and gender differentiated roles in agrifood systems, men and women do not experience climate change and variability in the same ways Balikoowa et al 2019, Lecoutere et al 2023. According to the World Economic Forum, women are more vulnerable than men to climate change due to lower education and exclusion from the political and domestic decision-making processes that affect their lives Gunawardena 2020.

**Selenium Research for Environment and Human Health: Perspectives, Technologies and Advancements** Gary Bañuelos, Zhi-Qing Lin, Dongli Liang, Xue-bin Yin, 2019-10-08 The biological importance of selenium has been firmly established by scientists for its intricate roles in various biochemical and physiological mechanisms related to animal and human health. To evaluate different facets of selenium in today's complex environment and to provide a worldwide platform for multi-disciplinary selenium researchers, the 6th International Conference on Selenium in the Environment and Human Health was held from 27 to 30 October 2019 in Yangling, Xi'an, China. This proceedings volume brings together 103 extended abstracts prepared by contributors from academia, industry, and governmental agencies in 18 countries, including some of the most recent research findings among different selenium research disciplines, from cell, molecular, and plant biology, geochemistry, biofortification, to environmental and health management. Selenium researchers worldwide provide extraordinary new knowledge on selenium in the peer-reviewed texts contained within this book.

Gendered Power and Mobile Technology Caroline Wamala Larsson, Laura Stark, 2019-05-31 Mobile phones are widely viewed as the information and communication technology that holds the most promise for bridging global digital divides. Gendered Power and Mobile Technology uses empirical research to focus on changing intersections between technology, gender, and other categories of social and cultural power difference, such

as age race class and ethnicity in the use of mobile communication technologies Asking how these intersections can inform development discourse practice and research this volume seeks to rectify the lack of attention to the Global South calling for more sensitivity to the contexts and consequences of mobile phone use Indeed drawing on case studies from Ecuador Ghana Kenya Mexico Peru Tanzania and Uganda this book engages with the intersectionality paradigm to tease out the complexities of using mobile technologies for development purposes Gendered Power and Mobile Technology will appeal to students and researchers interested in fields such as media studies development studies gender and technology feminist technoscience anthropology and sociology **Progress in Sustainable Development** David S-K.
