The Burden of Educational Exclusion , 2010-01-01 School was nothing but a taboo for me concludes Johannah a young South African after recounting her life story Johannah is one of the early school leavers who features in this book Figures on participation in education in Africa show that despite government agreements and policies developed under the banner of Education for All this remains a remote goal In several countries programmes on Universal Primary Education have improved access to education but do those who enter school remain there until they have reached a suitable level Do they acquire enough competences at primary and secondary school to survive the tough daily life in sub Saharan countries What happens to children and young adults who leave school early What measures can be taken to prevent them from doing so This book is based on research carried out in Eastern and Southern Africa by scholars from Africa and the Netherlands who cooperated within the framework of the ESLA project The contributions to this book reflect the exchanges and discussions which took place in this research group initiated by staff of Mzumbe University in Tanzania Uganda Martyrs University and the University of Groningen in the Netherlands The group aims to go beyond figures and uncover the causes effects and stories of the young people involved as well as explore promising new strategies with which to

address their needs As early school leaving is not exclusively an African problem a contribution on the Dutch situation is also included The book concludes that exclusion from education has far reaching effects not only for the young people involved but also for the society in which they live The burden of educational exclusion should be the joint responsibility of developing and developed countries The authors hope the book will contribute not only to a greater understanding of the phenomenon of early school leaving but also challenge it in terms of developing policies and programmes that can prevent educational exclusion and support those who already find themselves in such a situation

People and Education in the Third World W. T. S Gould, 2014-09-25 This text examines education and its role in Third World development Amongst the areas covered are the private and public demand for education global patterns of education the geography of educational provision the school and the community and education and population growth

Growing Up Global Institute of Medicine, National Research Council, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Population, Panel on Transitions to Adulthood in Developing Countries, 2005-06-25 The challenges for young people making the transition to adulthood are greater today than ever before Globalization with its power to reach across national boundaries and into the smallest communities carries with it the transformative power of new markets and new technology At the same time globalization brings with it new ideas and lifestyles that can conflict with traditional norms and values And while the economic benefits are potentially enormous the actual course of globalization has not been without its critics who charge that to date the gains have been very unevenly distributed generating a new set of problems associated with rising inequality and social polarization Regardless of how the globalization debate is resolved it is clear that as broad global forces transform the world in which the next generation will live and work the choices that today's young people make or others make on their behalf will facilitate or constrain their success as adults Traditional expectations regarding future employment prospects and life experiences are no longer valid Growing Up Global examines how the transition to adulthood is changing in developing countries and what the implications of these changes might be for those responsible for designing youth policies and programs in particular those affecting adolescent reproductive health The report sets forth a framework that identifies criteria for successful transitions in the context of contemporary global changes for five key adult roles adult worker citizen and community participant spouse parent and household manager

*Testing and Inclusive Schooling* Bjorn Hamre, Anne Morin, Christian Ydesen, 2018-05-11 Testing and Inclusive Schooling provides a comparative perspective on seemingly incompatible global agendas and efforts to include all children in the general school system thus reducing exclusion With an examination of the international testing culture and the politics of inclusion currently permeating national school reforms this book raises a critical and constructive discussion of these movements which appear to support one another yet simultaneously offer profound contradictions With contributions from around the world the book analyses the dilemma arising between reforms that urge schools to move towards a constantly higher academic level and those who

practice a politics of inclusion leading to a greater degree of student diversity The book considers the types of problems that arise when reforms implemented at the international level are transformed into policies and practices firmly placing global educational efforts into perspective by highlighting a range of different cases at both national and local levels Testing and Inclusive Schooling sheds light on new possibilities for educational improvements in global and local contexts and is essential reading for academics researchers and postgraduate students interested in international and comparative education assessment technologies and practices inclusion educational psychology and educational policy *Maintaining Universal Primary Education* Council for Education in the Commonwealth (Great Britain),2009 Explores the various economic political and social pressures which may affect the progress of educational provision as well as the different national educational policies and strategies themselves as they play out in five very different Commonwealth African countries Ghana Kenya Nigeria Tanzania and Zambia Educational Documentation and Information ,1972 Dependence, Underdevelopment, and Unemployment in Kenya Fantu Cheru,1987 Language in Kenya ...
