Amy Jo Minett,Sarah E. Dietrich,Didem Ekici,2022-03-16 This book maps the discursive terrain and potential of person to
person peacebuilding as it intersects with and is embedded in intercultural communication It foregrounds the voices and
discourses of participants who came together in the virtual intercultural borderlands of online exchange through a service
learning project with a non profit organization which focused on peace through education in Afghanistan primarily through
English language tutoring By analyzing the voices and perspectives of US based tutors who are pre service teachers of
English as an Additional Language in equal measure with the voices and perspectives of adult English learners in
Afghanistan the authors examine how intercultural interactants begin to work as peacebuilders The participants describe the
profound transformations they undergo throughout their intercultural tutoring journeys transformations which evidence
three dimensions of person to person peacebuilding the personal relational and structural Inspired by these voices the book
further explores ways teachers and teacher educators of language and intercultural communication can more deliberately
leverage the affordance of peacebuilding whether face to face or in the virtual intercultural borderlands of online exchange
