Wechsler, 2014-09-15 In The Qualified Student Harold S Wechsler focuses on methods of student selection used by institutions of higher education in the United States More specifically he discusses the way that college and university reformers employed those methods to introduce higher education into a broader cross section of America by extending access to an increased number of students from nontraditional backgrounds Implicit in much of this book is an underlying social and ethical question How legitimate was and is higher education s regulation of social mobility Public concern over colleges and universities practices became inevitable once they became regulators between social classes The challenging of colleges admissions policies in the courts augments similar concerns that have been present in legislatures for decades The volume is divided into three main sections

Prerequisites Columbia and the Selective Function and Implications It focuses mainly on four universities The University of Michigan Columbia University the University of Chicago and the City University of New York Wechsler maintains that unlike other universities these institutions were pacesetters they did not adopt a new policy simply because some other college had already adopted it A new introduction brings the book originally published in 1977 up to date and demonstrates its continuing importance in today s academic world of selective admissions Excited Delirium Aisha M. Beliso-De Jesús,2024-06-24 In 1980 Charles Wetli a Miami based medical examiner and self proclaimed cult expert of Afro Caribbean religions identified what he called excited delirium syndrome Soon medical examiners began using the syndrome regularly to describe the deaths of Black men and women during interactions with police Police and medical examiners claimed that Black people with so called excited delirium exhibited superhuman strength induced from narcotics abuse It was fatal heart failure that killed them examiners said not forceful police restraints In Excited Delirium Aisha M Beliso De Jes s examines this fabricated medical diagnosis and its use to justify and erase police violence against Black and Brown communities Exposing excited delirium syndrome s flawed diagnostic criteria she outlines its inextricable ties to the criminalization of Afro Latin religions Beliso De Jes s demonstrates that it is yet a further example of the systemic racism that pervades law enforcement in which the culpability for state violence is shifted from the state onto its victims In so doing she furthers understanding of the complex layers of medicalized state sanctioned violence against people of color in the United States
