**Minecraft: Building Handbook: Ultimate House Blueprints and Building Ideas for Homes, Buildings, and Structures** Drake Craft,2016-11-05 Never Build an Ugly House Again by Using Blueprints Want easy to follow image based blueprints to use when building your Minecraft houses and structures It can be extremely difficult to design Minecraft houses especially if you re in creative mode How big should your house be How do you make it look nice and well designed How many blocks of each material do you need This was a major problem for me in my Minecraft worlds

That's why I have created a series of blueprints that tells you exactly how to build the house you want. Layer by layer we clearly show where to place each block and how many of each block you need. Here's how it works: We give you a variety of different houses to choose from, all with their own unique styles and complexities. Take a moment to search through the different options we provide; completed pictures for you to choose from. You jump to the picture of the house you like the best and want to build. Once you pick your house, we will tell you what materials you need and how many blocks of each material you need to collect. From there, start collecting materials or start building in creative. Or you can start building with what you have and collect materials along the way. From there, the construction of the house is crazy simple. We start with layer 1. Each layer of the house is shown to you with a bird's eye view so you can clearly see which block goes where. Each photo is complemented with a descriptive text version of what you need to do in that layer. Then, step by step, layer by layer, we will build the house to the top. These blueprints were designed to be as clear and easy to follow as possible. Because building a well-designed house is hard work. Finding all of the materials along with knowing what to use at which time can get confusing. That's why you should start with a plan, design, and goal in mind. This is especially relevant if you are playing multiplayer. Don't be that player that builds the ugly house on the block. Build something amazing that other players are jealous of and compliment you for. The days of ugly houses are OVER. It's time to get started and get excited about your new Minecraft home. Just listen to what our other Minecraft readers have to say. This ebook is amazing. The images display what you need to construct so clearly. Building the house was so simple and it looks better than everyone else's on our server. Tim G Drake PLEASE MAKE MORE BLUEPRINTS. I always built awful houses and could never be happy with them or figure out how to improve them. Now I'm really happy with the village I built. John S. Keep it up and keep them coming. Drake Craft.
