Kenya Medical Training Colledge 2015 2016:

Impact of Global University Ranking Systems on Developing Countries Onyancha, Omwoyo Bosire, Tella, Adeyinka, 2023-06-01 The emotive discourses on the subject of university rankings are directly linked to the effect of such rankings on the performance of universities throughout the world. It has been observed that the top ranked universities attract major financial commitments from the industry, the best students, quality researchers and a wide range of other quality endowments such as equipment, libraries and laboratories. It is not surprising that the ranking of universities has gained popularity and become a significant factor shaping not only the reputation of universities but also the performance of said institutions around the world, including the developing countries. *Impact of Global University Ranking Systems on Developing Countries* presents a collection of perspectives from scholars and other stakeholders on the impact of the global ranking systems on developing countries. The book is an additional resource for discussion and discourse as far as the global university ranking systems are concerned and opens new frontiers for further research. Covering key topics such as assessment, ethics and academic freedom, this premier reference source is ideal for administrators, policymakers, researchers, scholars, academicians, practitioners, instructors and students. *The Oxford Handbook of Kenyan Politics* Nic Cheeseman, Karuti Kanyinga, Gabrielle Lynch, 2020-02-14 Kenya is one of the most politically dynamic and influential countries in sub-Saharan Africa. Today it is known in equal measure as a country that has experienced great highs and tragic lows. In the 1960s and 1970s Kenya was seen as a success story of development in the periphery and also led the way in terms of democratic breakthroughs. In 2010 when a new constitution devolved power and placed new constraints on the president, however, the country has also made international headlines for the kind of political instability that occurs when electoral violence is expressed along ethnic lines, such as during the Kenya crisis of 2007/08 when over 1 000 people lost their lives and almost 700 000 were displaced. *The Oxford Handbook of Kenyan Politics* explains these developments and many more, drawing together 50 specially commissioned chapters by leading researchers. The chapters they have contributed address a range of essential topics including the legacy of colonial rule, ethnicity, land, politics, devolution, the constitution, elections, democracy, foreign aid, the informal economy, civil society, human rights, the International Criminal Court, the growing influence of China, economic policy, electoral violence and the impact of mobile phone technology. In addition to covering some of the most important debates about Kenyan politics, the volume provides an insightful overview of Kenyan history from 1930 to the present day and features a set of chapters that review the impact of devolution on regional politics in every part of the country. **Access to Education and Health among Minority and Indigenous Communities in Kenya: Assessment of Baringo, Trans-Nzoia, Elgeyo Marakwet and Turkana Counties** Geoffrey Kerosi, Samuel Olando, 2021-05-06 This study seeks to measure disparity in the enjoyment of health and education rights in Kenya with a focus on minorities and indigenous peoples in Turkana, Elgeyo Marakwet, Trans Nzoia and Baringo counties. It combines

primary research with an analysis of Kenyan legislation policies and regulations alongside international standards that promote the rights to health and education In particular it examines Kenya s system of raising revenues especially through taxation and whether resources allocated towards the health and education sector benefit the country s most marginalized communities While recognizing some improvements in recent years Access to Education and Health among Minority and Indigenous Communities in Kenya Assessment of Baringo Trans Nzoia Elgeyo Marakwet and Turkana Counties also highlights the continued challenges that constrain equitable and inclusive provision for marginalized groups in many parts of the country From underspending to infrastructure gaps lack of trained personnel to limited engagement with civil society it identifies a range of problems and concluded with a series of recommendations for local authorities and the national government to improve minority and indigenous access to these basic rights
