difference today is that your children are freely roaming the information highway's virtual streets right in your own home. You give your children a computer with internet access; they can log on to a public server and interact with complete strangers anywhere around the world.

### Why Build Your Own Server

When you create your own server, you can control who your children interact with online through the game. This includes who they play against and most importantly, who they communicate with during online gaming chat. With your own server, you can prescreen opponents and players to confirm they are safe and appropriate for your children to engage in online gaming with.
