The Cameroon GCE Crisis Francis B. Nyamnjoh, Richard Fonteh Akum, 2008 This book documents the battles fought by the Anglophone community in Cameroon to safeguard the General Certificate of Education GCE a symbol of their cherished colonial heritage from Britain from attempts by agents of the Ministry of National Education to subvert it These battles opposed a mobilised and determined Anglophone civil society against numerous machinations by successive Francophone dominated governments to destroy their much prided educational system in the name of national integration When Southern Cameroonians re united with La Republique du Cameroun in 1961 they claimed that they were bringing into the union a fine

education system from which their Francophone compatriots could borrow. Instead they found themselves battling for decades to save their way of life. Central to their concerns and survival as a community is an urgent need for cultural recognition and representation of which an educational system free of corruption and trivialisation through politicisation is a key component.
