Binder Ready Version with 2 Semester Chemistry Course Set David R. Klein,2011-12-20 Possible Scenarios for

Homochirality on Earth Michiya Fujiki,2019-11-14 In 1978 Fred Hoyle proposed that interstellar comets carrying several viruses landed on Earth as part of the panspermia hypotheses With respect to life the origin of homochirality on Earth has been the greatest mystery because life cannot exist without molecular asymmetry Many scientists have proposed several possible hypotheses to answer this long standing L D question Previously Martin Gardner raised the question about mirror

symmetry and broken mirror symmetry in terms of the homochirality question in his monographs 1964 and 1990 Possible scenarios for the L D issue can be categorized into i Earth and exoterrestrial origins ii by chance and necessity mechanisms and iii mirror symmetrical and non mirror symmetrical forces as physical and chemical origins These scenarios should involve further great amplification mechanisms enabling a pure L or D world
