**Verhandelingen der Koninklijke Nederlandse Akademie van Wetenschappen, Afd. Letterkunde** ,1994 **The English Romance in Time** Helen Cooper, 2004-06-17 The English Romance in Time is a study of English romance across the Middle Ages and the Renaissance It explores romance motifs quests and fairy mistresses passionate heroines and rudderless boats and missing heirs from the first emergence of the genre in French and Anglo Norman in the twelfth century down to the early seventeenth This is a continuous story since the same romances that constituted the largest and most sophisticated body of secular fiction in the Middle Ages went on to enjoy a new and vibrant popularity at all social levels in black letter prints as the pulp fiction of the Tudor age This embedded culture was reworked for political and Reformation propaganda and for the writing of England as well as providing a generous reservoir of good stories and dramatic plots The different ways in which the same texts were read over several centuries or the same motifs shifted meaning as understanding and usage altered provide a revealing and sensitive measure of historical and cultural change The book accordingly looks at those processes of change as well as at how the motifs themselves work to offer a historical semantics of the language of romance conventions It also looks at how politics and romance intersect the point where romance comes true The historicizing of the study of literature is belatedly leading to a wider recognition that the early modern world is built on medieval foundations This book explores both the foundations and the building Similarly generic theory which previously tended to operate on transhistorical assumptions is now acknowledging that genre interacts crucially with cultural context with changing audiences and ideologies and means of dissemination The generation into which Spenser and Shakespeare were born was

the last to be brought up on a wide range of medieval romances in their original forms and they could therefore exploit their generic codings in new texts aimed at both elite and popular audiences Romance may since then have lost much of its cultural centrality but the universal appeal of these same stories has continued to fuel later works from Bunyan's *Pilgrim's Progress* to C S Lewis and Tolkien

**Flora Tristan** Susan Grogan, 2002-09-11 Flora Tristan is best known as a nineteenth century French social critic and reformer Her writings can be seen as a precursor to Marxism and Feminism Flora Tristan Life Stories by Susan Grogan investigates the life of Flora Tristan through an exploration of the way she represented herself in her own writings The author also examines the portrayal of Flora Tristan in paintings and literature Rather than adopting a chronological approach the author surveys the personae of Flora Tristan through thematic chapters on her roles as author socialist traveller and Mother of the Workers She places Flora Tristan in the context of contemporary debates and ideas adding to our understanding of the times in which Flora Tristan lived Flora Tristan Life Stories argues that Flora Tristan's self representations were attempts to claim a role of authority and significance not open to women in the nineteenth century This authoritative study also engages with attempts to re evaluate the writing of biography and to explore the meaning of an individual life in historical context *Les Livres de L'année* ,1927 **The Reference Catalogue of Current Literature** ,1913 **Pagnol, La Gloire de Mon Père, And, Le Château de Ma Mère** David Coward, 1997 **Bibliotheca Lindesiana ...** James Ludovic Lindsay Earl of Crawford, 1910 Reference Catalogue of Current Literature ,1913 **The New Cambridge Bibliography of English Literature** George Watson, Ian Roy Willison, 1974 **Le Gerfaut** ,1994 **General Catalogue** Bernard Quaritch, 1892 *French Literature: Classification schedule, classified listing by call number, chronological listing* Harvard University.
