Identity and Ecclesiology Stephanie A. Lowery, 2017-04-25 Questions of identity continue to intrigue theologians in Africa and African intellectuals often note communal emphases in African thought This raises the question How do ecclesiologies in Africa engage with identity concerns and how do they envision the Christian identity Stephanie Lowery argues in this book that theologians in Africa provide theological and biblical arguments regarding Christian identity that are relevant to individual Christians and ecclesiologies in all contexts She also proposes the social identity approach as a tool that can both further articulate and advance these discussions

 This book focusses on the several forms of reconstructing the slave past in the present The recent emergence of the memory
 of slavery allows those who are or who claim to be descendents of slaves to legitimize their demand for recognition and for
 reparations for past wrongs Some reparation claims encompass financial compensation but very often they express the need
 for memorialization through public commemoration museums and monuments In some contexts presentification of the slave
 past has helped governments and the descendants of former masters and slave merchants to formulate public apologies For
 some expressing repentance is not only a means to erase guilt but also a way to gain political prestige The authors analyse
 different aspects of the recent phenomenon of memorializing slavery especially the practices employed to stage the slave
 past in both public and private spaces The essays present memory and oblivion as part of the same process they discuss
 reconstructions of the past in the present at different public and private levels through historiography photography
 exhibitions monuments memorials collective and individual discourses cyberspace religion and performance By offering a
 comparative perspective on the United States and West Africa as well as on Western Europe South America and the
 Caribbean the chapters offer new possibilities to explore the resurgence of the memory of slavery as a transnational
 movement in our contemporary world Kings and Clans David S. Newbury, 1991 Kings and Clans questions the assumption
 that clans as traditionally defined by anthropologists and historians are static structures that hamper political centralization
